

# Moss Motors Car Cutout Model

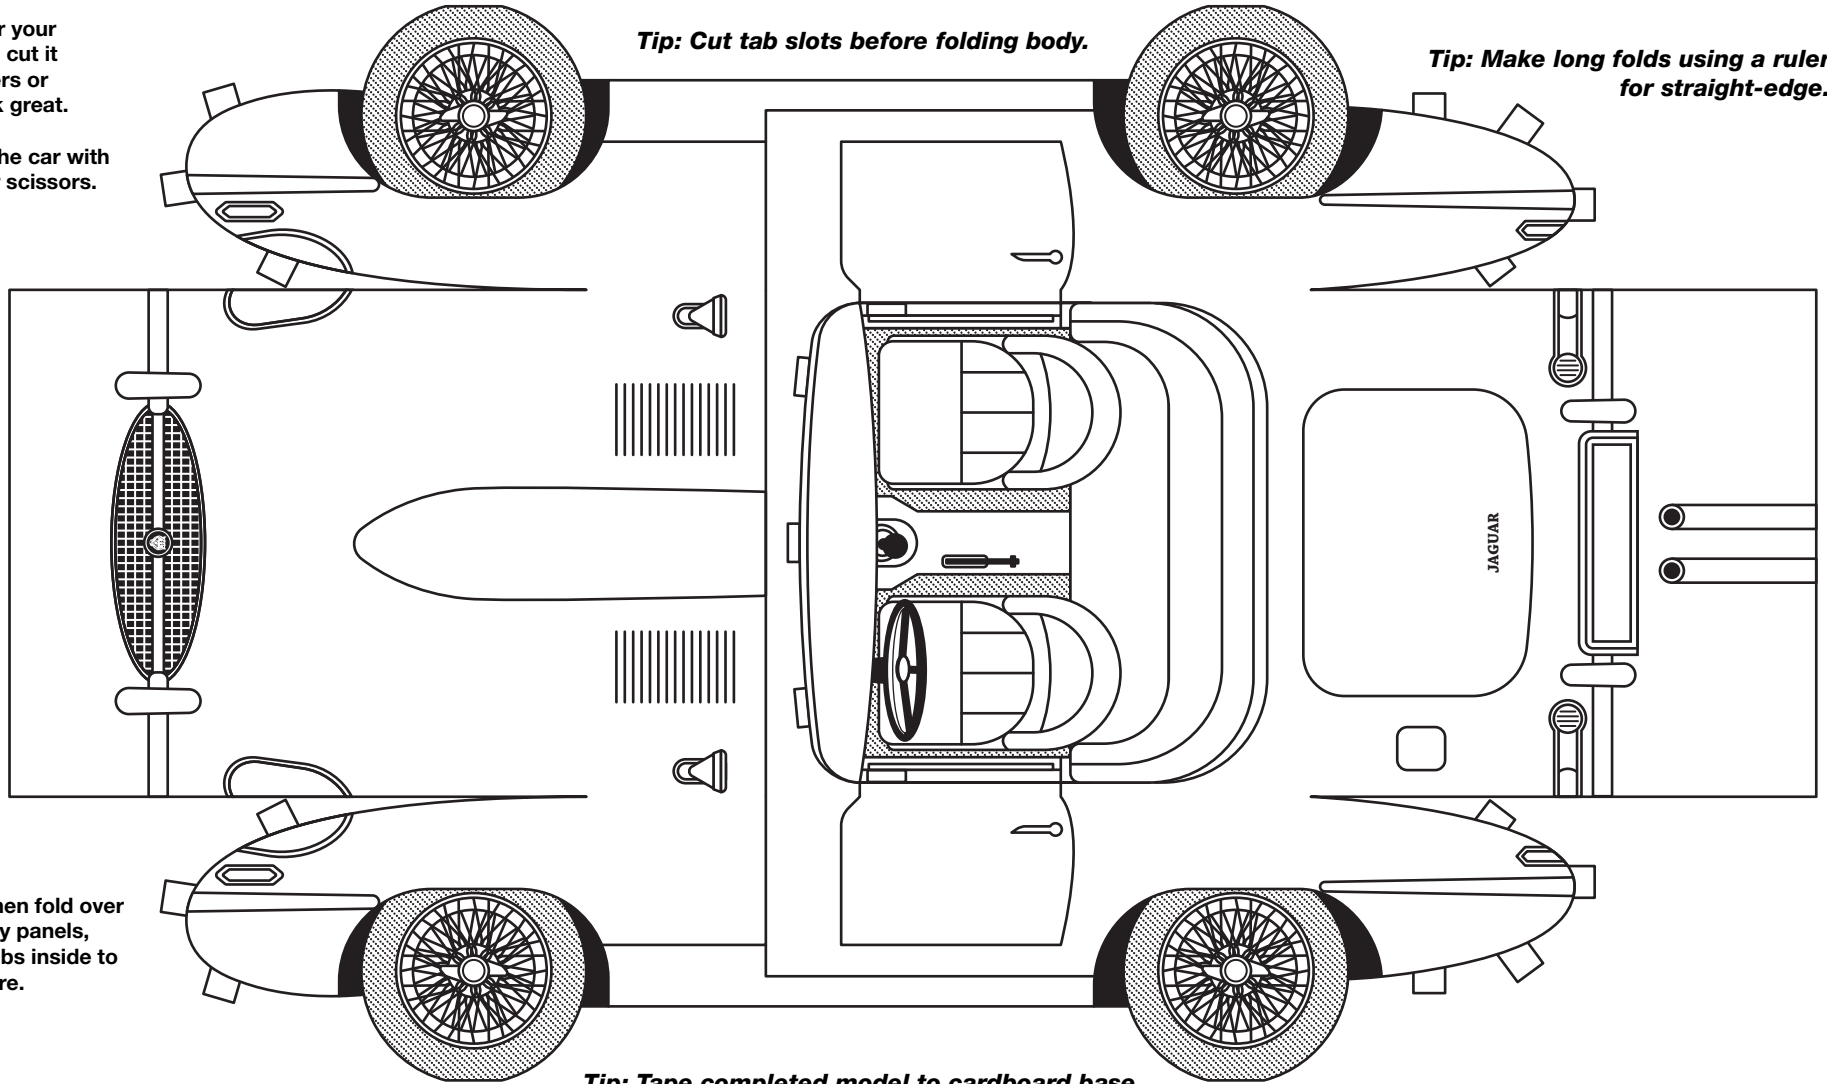

**JAGUAR E-TYPE**  
The original E-Type was first showcased at the 1961 Geneva Motor Show, where it would turn out to be one of the worlds most famous cars. 72,515 E-Types were manufactured between 1961 to 1974.

It is easier to color your E-Type before you cut it out. Felt tip markers or color pencils work great.

Carefully cut out the car with an X-Acto knife or scissors.

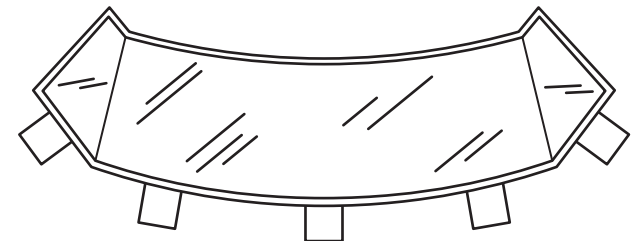

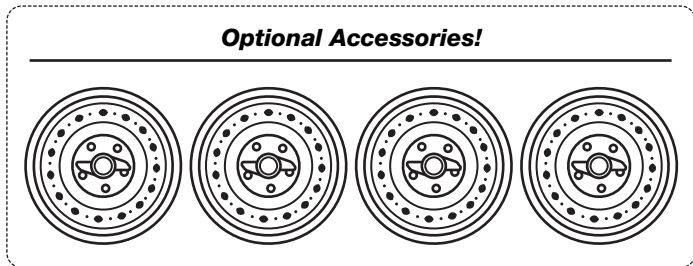

**Tip: Cut tab slots before folding body.**

**Tip: Make long folds using a ruler for straight-edge.**

Fold down tabs, then fold over front and rear body panels, gluing or taping tabs inside to hold body curvature.

**Tip: Tape completed model to cardboard base. (Black or dark gray looks good.)**

Locate windshield in slots on cowl, giving it a slight curvature to make it stand up.
