

**MOSS** **Miata** | **Miata** **Cutout** **ND**

It is easier to color your Miata before you cut it out. Felt tip markers or color pencils work great.

Carefully cut out the car with an X-Acto knife or scissors.

After cutting out car, fold down tabs, then roll over front and rear body panels, gluing or taping tabs inside to hold body curvature.

*Tip: Fold down all dashed lines.*

WINDSHIELD

Locate windshield in slots on cowl, giving it a slight curvature to make it stand up.

MIRRORS

*Tip: Tape completed model to cardboard base. (Black or dark gray looks good.)*
