

Moss Motors Car Cutout Model

CLASSIC MINI
After a fuel shortage the first Mini was introduced in 1959. The original Mini was considered an icon of the 60's. About 5.3 million Minis were produced from 1959 to 2000, majority of them being produced by the Longbridge plant.

It is easier to color your Mini before you cut it out. Felt tip markers or color pencils work great.

Carefully cut out the car with an X-Acto knife or scissors.

After cutting out car, fold down tabs, then fold over rear body panels first, gluing or taping tabs inside to hold body curvature.

**Tip: Tape completed model to cardboard base.
(Black or dark gray looks good.)**

Optional Accessories!

Wheels

Union Jack Roof
