

Moss Motors Car Cutout Model

TRIUMPH TR3

The TR3 "Small Mouth" grille denoted a major change from the TR2's empty grille cavity. Spanning three model specifications between 1955 and 1962, 13,377 TR3s, 58,309 TR3As and 3,334 TR3Bs were produced.

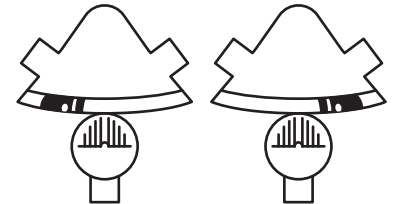

It is easier to color your TR3 before you cut it out. Felt tip markers or color pencils work great.

Carefully cut out the car with an X-Acto knife or scissors.

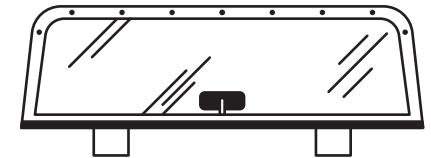

After cutting out car, fold down tabs, then roll over front and rear body panels, gluing or taping tabs inside to hold body curvature.

Cut out steering wheel (inside too) and glue in place.

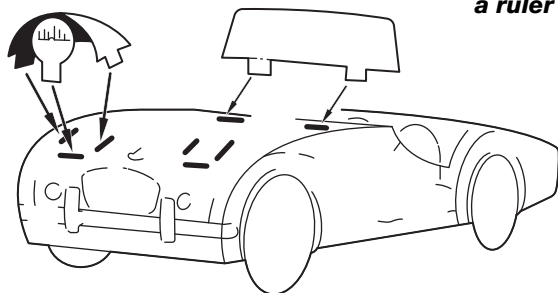

Fold headlight nacelle as shown and position in slots in hood.

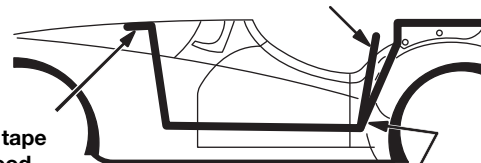

Locate windshield in slots on cowl, giving it a slight curvature to make it stand up.

Tip: Make long folds using a ruler for a straight-edge.

Fold up seat back.

Fold tab A and tape /glue under hood.

Fold down rear seat B tape/glue to seat/ floorboard.

Tip: Tape completed model to cardboard base. (Black or dark gray looks good.)
