

Supplemental Information & Instructions for 021-753 Ignition Wire Set Austin Healey 100-6 & 3000

About this wire set...

This wire set is appropriate for use on any of the 6 cylinder Healeys. The wires have a core of metal strands, and will fit the original side entry distributor cap. The Lucas type spark plug clips have a bare copper socket that snaps onto the tip of the spark plug, which looks odd compared to the super insulated plug wires used on modern cars. These clips literally "screw into the wire". This is a simple but effective system.

Contents of Kit

11	Set of 6	171-640	Ignition Wire Identification Sleeves, 1 through 6
12	2	282-760	Rubber Ring, to bundle wires 1 & 2 together, and 5 & 6 together
14	6	171-620	Spark Plug Clip, Lucas Type (period style alternative)
15	7 ft	171-637	Ignition wire, steel core

Instructions

Individual spark plug leads must be cut to length to suit your application. The table below has the correct lengths for each wire as listed in the "Austin-Healey Factory Service Parts List". Since many engines and/or distributors may have been changed, you may need slightly different lengths. Please check carefully prior to cutting. Ignition wire labels should be fitted on the spark plug clip ends. The two rubber o-rings included were used originally to bundle wires 1 & 2 together and 5 & 6. for a neat and tidy appearance.

Wire	100-6 & 3000 Except BJ8		BJ8	
	Inches	MM	Inches	MM
Coil to Distributor	11.0	279.4	9.0	228.6
#1	13.5	342.9	10.0	254
#2	12.0	304.8	9.0	228.6
#3	9.0	228.6	5.5	139.7
#4	11.0	279.4	9.0	228.6
#5	11.5	292.1	11.0	279.4
#6	16.0	406.4	15.5	393.7

Any suggestions that you may have that will improve the information (especially detailed installation notes) are welcome. Please use the simple email form on the "Contact Us" page on the Moss website:
