

Alternator

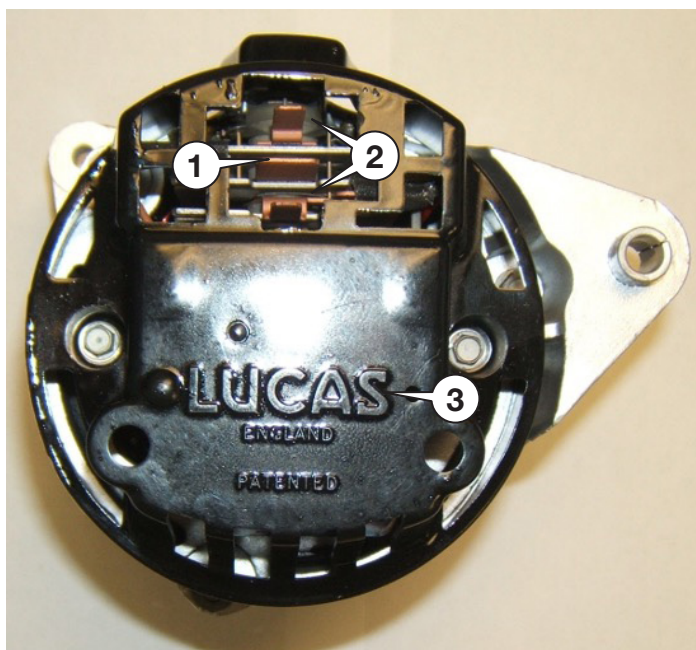

PART# 130-090

Core Identification Sheet

For your alternator to be an acceptable 130-090CORE it must be complete, fully assembled, with no broken mounting flanges.

It must also have the features as called out in the photo below to comply as a "rebuildable." Return Cores that do not meet these requirements are ineligible for core credit and will be rejected.

- 1) One Large Spade Connector
- 2) Two Small Spade Connectors
- 3) Rear cover with LUCAS name
- 4) $\frac{5}{8}$ " approximate Stator Width (43 Amp Alternator)
- 5) Alternators with one Small and two Large Spade Connectors will be accepted, but are eligible for **a 75% CORE refund only.**

Rejected cores will be returned or discarded. Look for your confirmation email and open the attachment for details.
