

Sending Unit, Fuel, Solid State

Supplemental Information

MGB 65-76, RD FROM (B)56743 TO (C)415000, ALL GT

360-661 or AHU1027

440 Rutherford St. Goleta, CA 93117
1-800-642-8295 • FAX 805-692-2525 • www.MossMotors.com

To correctly wire the sending unit received, first orient the unit like the example in the photo to identify the terminals. The top terminal is for the ground. The middle terminal is for the gauge. The bottom terminal is **not** used.

Although every effort has been made to ensure the accuracy and clarity of this information, any suggestions that you may have that will improve the information (especially detailed installation notes and photos) are welcome. These instructions were developed and written by Moss Technical Support. If you have any questions or difficulties with your installation of this product, telephone 800-667-7872 between 7:00 a.m. and 4:00 p.m., Pacific Time for assistance.
