

Fuel Pump Elbow Set

Part# 375-038

- 1) Disassemble Fuel Pump Elbow Set, as it is supplied. (as shown in Figure B.)
- 2) Move cap nut and compression sleeve to positions shown in Figure A.
- 3) Tighten cap nut on fuel pump fitting. Be careful not to over-tighten.
- 4) Thread hose on elbow, again being careful not to over-tighten.
