

# Alternator

**PART# 540-240 & 540-245**

## Core Identification Sheet

For your alternator to be an acceptable 540-240CORE, it must be complete, fully assembled, with no broken mounting flanges.

**It must also have the features as called out in the photo below to comply as "rebuildable."** Return Cores that do not meet these requirements are ineligible for core credit and will be rejected.

\*The 540-245 alternator is the same, except the mounting brackets are rotated 180 degrees.

1. **Narrow Spade Connector**
2. **Large Spade Connector**
3. **Large Spade Connector**
4. **Tach Spade Connector**
5. **5/8" width Stator (43 Amp Alternator)**

Rejected cores will be returned or discarded.

Look for your confirmation email and open the attachment for details.
