

Supplemental Information
for
839-020 Rocker Arm, Even
839-050 Rocker Arm, Odd
TR 2, 3, 3A, 3B, 4, 4A

Background

In the TR4 Factory Workshop Manual, page 35, Figure 36 shows the arrangement of the rockers arms. The manual explains how the rocker arms are identified by numbering them 1 through 8, starting from the front. The arms are slanted. Looking down on the rocker assembly with the front of the engine to your left, the "odd rockers" (1,3,5,7) slant to the right, and the "even rockers" (2,4,6,8) slant to the left.

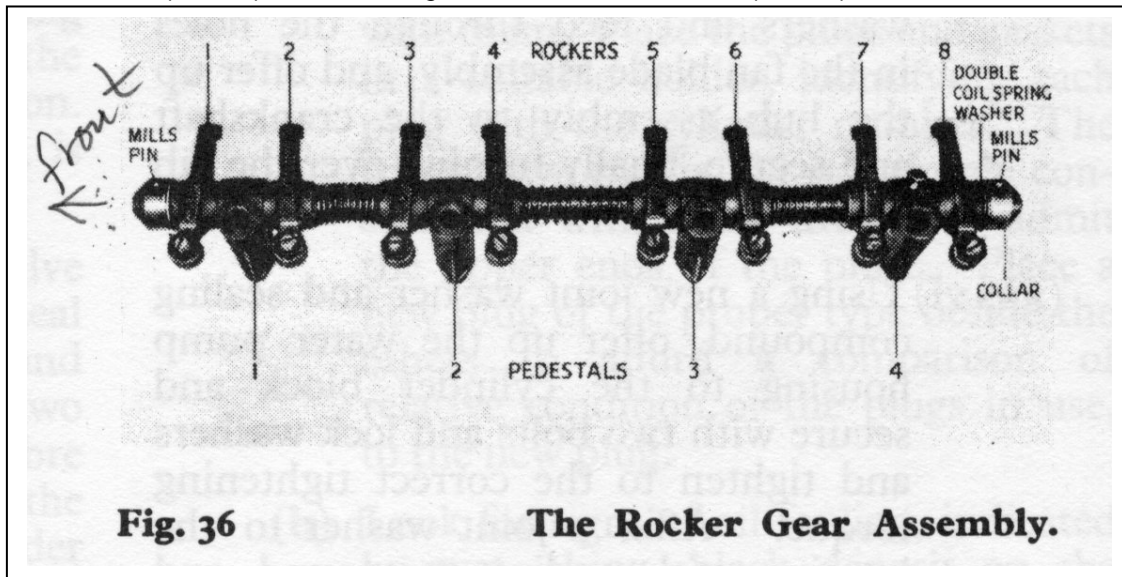

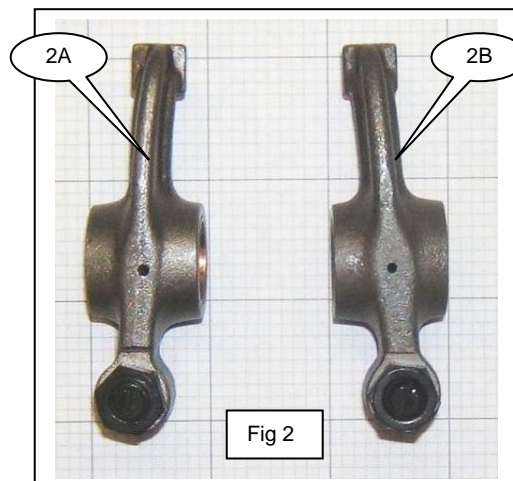

Fig. 36

The Rocker Gear Assembly.

Identifying the Rockers (Fig 2)

2A is the 839-050 "odd" (1,3,5,7) rocker arm.
2B is the 839-020 "even" (2,4,6,8) rocker arm.
