 **WHITELINE**

The Mazda Miata, an icon among sports cars, continues to captivate enthusiasts with its blend of fun, agility, and timeless design. As we look ahead, the future of the Miata promises a captivating journey, bolstered by restoration, reliability, and the sheer joy of driving these spirited machines that evoke intense owner passion.

Restoration stands as a pillar for preserving the Miata's legacy. Skilled aficionados meticulously breathe new life into these roadsters, reviving their sleek lines and sprightly performance. This commitment to restoring these vehicles honors their heritage while ensuring that future generations can experience the exhilaration of driving a classic Miata.

Reliability, a hallmark of Mazda's engineering prowess, continues to evolve in the Miata's future iterations. Technological advancements and engineering refinements enhance not just performance but also ensure durability, making these cars not only thrilling but dependable companions on the road. The Miata's reliability adds a layer of reassurance to the undiluted driving pleasure it offers.

Driving a Mazda Miata isn't just about transportation; it's an honor and a thrill. Owners revel in the responsive handling, the wind in their hair, and the connection to the road that these sporty roadsters offer. The Miata embodies the essence of driving pleasure, creating an emotional

bond between driver and machine that few cars can replicate.

The passion surrounding the Mazda Miata community is infectious. Enthusiasts gather, sharing stories, knowledge, and a profound appreciation for these charismatic cars. This fervor ensures that the Miata's legacy persists, fostering a vibrant community that cherishes and upholds the spirit of these iconic roadsters.

Looking forward, the Mazda Miata's future remains bright, promising continued restoration, reliability, and the sheer delight of driving. As owners cherish and preserve these fun, sporty cars, they ensure that the Miata's legacy endures, inspiring generations to come to embrace the thrill of the open road in this iconic sports car.

EXHAUST SYSTEMS BY COBALT

Stainless Steel Single Tip Exhausts by Cobalt ②

Treat your Miata to one of the finest Sport Mufflers available. Cobalt's beautiful polished stainless muffler is custom made for the Miata using the highest quality materials. Wanting only the best, this muffler has an extensive set of features that make it the best. With a sporty exhaust note and a mirror polish that shines like chrome, Cobalt's Sport Muffler is the perfect piece of eye candy for your favorite Roadster at a truly affordable price.

Features:

- 1.2 mm thick polished stainless steel used for muffler shell, tips, and piping
- 2 1/4" Pipe diameter
- CNC cut stainless steel flanges
- Beautifully shaped oval Muffler
- Stainless steel for inner core and perforated tubing
- Entire muffler completely polished to a mirror shine
- All welds on muffler are smooth and polished
- 3 1/2" slash cut insulated and polished muffler tip
- Muffler packing is a combination of stainless steel wool and fiberglass for a perfect sports car sound that is never intrusive
- 5 Year Warranty*

Warranty: *This muffler is warranted to the original purchaser of record and for the original vehicle on which the product was installed, against defects in materials and workmanship for 5 years. Moss' sole obligation under this warranty shall be limited to repair or replacement at Moss' option, provided that the muffler discloses a manufacturing defect. Warranty is void if any defects are caused by a physical impact of any kind.

Stainless Steel Dual Tip Mufflers by Cobalt ②

A popular dual tip design is now available from the Cobalt brand! These mufflers feature a laser-etched Cobalt logo on the tips and carry over all the same great features and sound from the single tip design:

- 1.2 mm thick polished Stainless Steel used for muffler shell, tips, and piping
- Muffler packing is a combination of stainless steel wool and fiberglass for a perfect sports car sound that is never intrusive, raspy or drones on the highway
- Stainless steel used for inner core and perforated tubing
- Entire muffler completely polished to a mirror shine
- Sporty insulated and polished muffler tips
- Easy bolt-on design
- CA emissions legal
- Gasket included
- 5-Year Warranty
- More info and sound clips online at MossMiata.com!

910-645

903-110

Performance Stainless Steel Headers by Cobalt ③

The Cobalt stainless steel headers pull hard through a wide power-band without that head-throbbing resonance often found in low-quality headers. The Cobalt headers are custom made for your Miata using the highest quality materials and workmanship. Our headers fit manual transmission cars only and only the 90-97 headers are CARB approved.

Note: 99-00 California cars will require 903-700 or the check engine light will come on. The 903-700 kit includes a weld in O2 bung which should be placed behind the rear cat. Another option is to use one of the Cobalt mid-pipes 909-960 & 909-962 that have this bung already. This will not make it CARB compliant, it simply keeps the engine light off.

Check out this set of features:

- Manufactured from 304 stainless steel
- TIG-Welded
- Mandrel bent tubes
- Ceramic coating on 90-97 headers
- 99-00 Miatas require the EGR tube
- Fits both the stock mid-pipe or Cobalt 2½" mid-pipes 909-960 & 909-962
- 5 Year Warranty

90-93 CARB Approved ¹	903-110	599.99

BREATHE FREELY!**

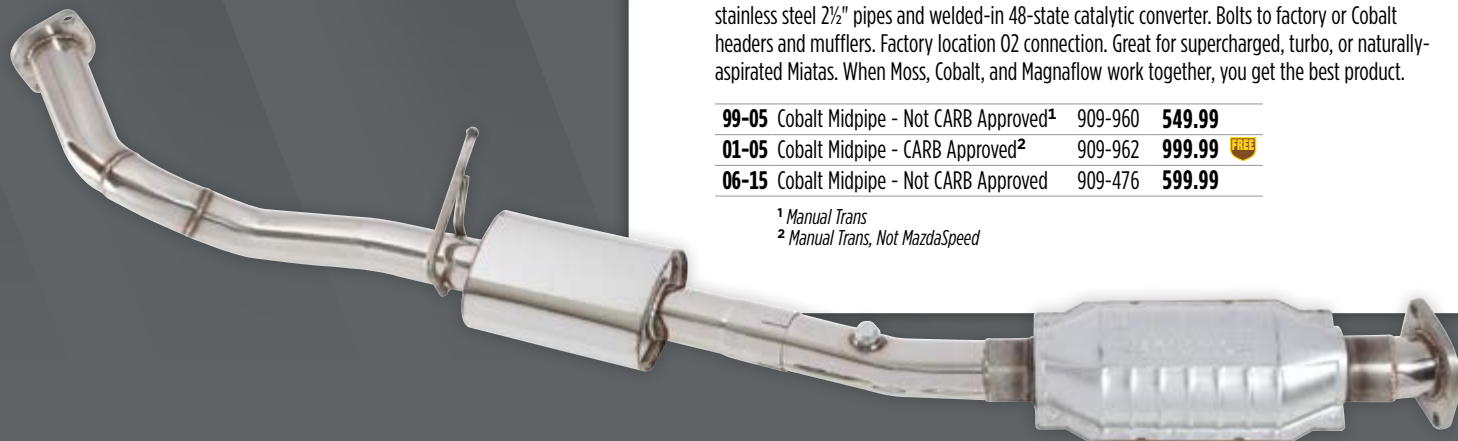

Stainless Steel Midpipe by Cobalt ②

When you want the best performance mid-pipe, choose Cobalt. Designed by our in-house Engineering and R&D team with consultation from our California neighbor, Magnaflow. Full stainless steel 2½" pipes and welded-in 48-state catalytic converter. Bolts to factory or Cobalt headers and mufflers. Factory location O2 connection. Great for supercharged, turbo, or naturally-aspirated Miatas. When Moss, Cobalt, and Magnaflow work together, you get the best product.

903-704

Stainless Steel Midpipes by RoadsterSport ②

A stainless steel mid-pipe adds horsepower and torque, and will last a long time. RoadsterSport's offerings fit with all factory headers and aftermarket systems, include high-flow catalytic converters, and are 2½" in diameter for the entire length. They are slightly louder than stock. 99-05 has factory 02 location. 06-15 utilizes a Helmholtz resonator which cuts down the 'booming' frequencies of 120-130 hz by 48+db inside the cabin and weighs 3½ lbs less than stock while adding 5-8 ft.lbs of torque. Warranty: 5 year / 50,000 mile manufacturing defect warranty on the housing and 25,000 mile manufacturing defect warranty on the internals.

Header Heatshield by Track Dog Racing ②

The exhaust manifold is the main source of heat under your Miata's hood. By covering and isolating it with a Track Dog heat shield you will prolong the life of rubber engine parts. In addition, air entering your engine will be cooler allowing for maximum power to be generated from your Miata. Can be fitted to all factory and aftermarket headers. Updated design is 20% larger than the previous Track dog heat shield offered, and now features a 4th layer of fiberglass insulation.

Fuel Pumps by DeatschWerks ③

Since its founding in 2004, DeatschWerks has dedicated itself to providing high-performance EFI fuel system solutions. Located in Oklahoma City, Oklahoma, DeatschWerks operates all the company's design, end-manufacturing, and quality assurance. DeatschWerks' roots were established by offering high flow drop-in fitment fuel injectors. In 2009, DW expanded into fuel pumps with the DW300, the first in-tank fuel pump to outflow the standard 255 LPH pump. Since then, DW has developed an array of innovative fuel system components such as the DW100, DW200, DW300c, and DW65c.

MISHIMOTO

Oil Catch Can Kit by Mishimoto ①

Your new Miata isn't running as cleanly as you thought, and this Oil Catch Can from Mishimoto is what you need to clean it up. Mazda designed the engine to vent excess vapors and oil back into the intake manifold, causing oil deposits that gunk up the intake and the valves, and crankcase vapors which could cause detonation. Plumbing this catch can into the PCV system captures the oil and moisture and contains it in this great looking black billet aluminum canister

16-24 Oil Catch Can Kit	910-860	249.00

AEM
PERFORMANCE ELECTRONICS

X-Series Wideband AFR Sensor and Controller Gauge by AEM ③

AEM's X-Series Wideband UEGO (Universal Exhaust Gas Oxygen) Air/Fuel Ratio Sensor Controller Gauges are built upon unique, patented 100% digital technology that makes them the fastest responding wideband air/fuel ratio controllers in independent testing. This is a powerful tuning tool to accurately monitor the Air/Fuel Ratio of your engine.

90-24 Wideband AFR Sensor and Controller Gauge	907-270	219.99
--	---------	--------

DAVEFAB

Catch Can by DaveFab ②

While the stock Miata's breather system works well, and at low rpm and partial throttle conditions is able to pull a vacuum to reduce crankcase windage, it ends up recirculating all of the oil vapors directly into the inlet manifold, reducing the performance of your engine. This new catch will resolve those problems. It has a high quality internal baffle that separates suspended oil vapors and allows them to be collected, preventing oily intakes. This laser profiled baffle effectively eliminates the chance of steel wool or other baffle material entering the engine.

Featuring a full TIG welded and CNC folded aluminum construction, the catch can is finished in a stealthy, satin textured, black powdercoat. It has been designed to fit perfectly in the engine bay, and bolts to the existing mounting holes.

90-05 Catch Can	908-157	214.99
06-15 Catch Can	908-143	269.99

908-420

PEDAL COMMANDER

Pedal Commander for Miata ②

Recommended for automatic transmission cars. The Pedal Commander allows you to customize your car's throttle response, eliminating the delay from your electronic gas pedal. It comes with 4 modes, Eco, City, Sport, and Sport+; each mode has 9 additional customizations, letting you fine-tune it to your liking. Whether you want to increase fuel economy or accelerate faster, this tool will help you do it.

The Pedal Commander only takes 5 minutes to install, is Bluetooth-compatible, and can be controlled via their free app - making it a must have for your Miata.

99-15 Pedal Commander	908-420	329.99
16-24 Pedal Commander	908-421	329.99

Cold Air Induction by Cobalt[®] ③

Our Cobalt intake uses a precisely placed scoop, just behind the grille, to direct pressurized air into the engine. The incoming cool air is pushed through the intake to the engine, increasing HP and TQ output. For even more power output, replace the stock paper air filter with a high flow K&N cotton gauze filter.

Note: Not CARB approved.

06-15 Cold Air Induction	904-377	94.99
--------------------------	---------	-------

Air Intake System by Cobalt[®] ②

Clean up the front of your engine, add a nice growl sound on acceleration, and a little more power too with this Air Intake System by Cobalt. Designed with a shield to keep intake air cool and protected from hot ambient engine temperatures, also features a reusable K&N brand filter. The arm is rotomolded and textured black plastic, and the heat shield is black painted steel. Includes all installation hardware and instructions.

Note: Not CARB approved. Complete kit (909-605) comes with Air Box (909-606).

99-05 Air Intake System by Cobalt, w/ Air Box ¹	909-605	289.99

¹ Not 04-05 MazdaSpeed

Pro 64 mm Throttle Bodies by Skunk2 Racing ③

A larger throttle body is key to producing additional power on modified engines with increased airflow demands. Skunk2's Pro Series Throttle feature a large, 64mm bore, which results in significant horsepower gains on heavily modified, naturally aspirated applications and even more on forced induction ones.

Note: All necessary hardware and a new throttle body gasket are included for trouble-free installation. Not CARB approved.

94-97 64 mm Throttle Body	910-626	299.99
99-05 64 mm Throttle Body	910-627	299.99

Ultra Street Intake Manifold by Skunk2 ④

Skunk2 Racing Ultra Street Intake Manifolds are cast-aluminum, manufactured from high-grade 356 aluminum alloy for strength and light weight. Each manifold is CNC-machined for a precise fit, and individually inspected for quality assurance. Large velocity stack raised bell mouth entries lead to 10.00" long intake runners with smooth transitions allowing the Ultra Street Intake Manifold to outflow all other production intake manifolds.

Note: Not CARB approved.

94-05 Ultra Street Intake Manifold	910-625	459.99
------------------------------------	---------	--------

Cold Air Intake by AEM Performance Electronics ②

The AEM-21-786C Performance Cold Air Intake System produces horsepower and torque gains by replacing your vehicle's restrictive factory air filter and air intake housing — giving your car outstanding air flow, filtration, and performance.

The AEM Dry flow synthetic washable air filter is located in the original air box space; it's protected by a heat shield which reduces intake air temperature and increases horsepower. Attached to the heat shield is an aluminum coolant overflow reservoir that replaces the stock reservoir for a proper fit. The air intake tubing is constructed from mandrel-bent aluminum featuring a durable gunmetal gray powder coated finish.

The tapered cylinder shaped AEM Dry flow air filter is made from an oil-free, synthetic filter media that can be used for up to 100,000 miles before cleaning is needed depending on driving conditions.

Features:

- Easy installation without special tools
- Washable, long-lasting filter
- Accommodates engine's factory emissions control devices, including the mass air flow sensor and PCV hose
- Designed, tuned, and dyno-tested for Miatas

Note: Not CARB approved.

16-24 Intake Kit	908-319	439.99
------------------	---------	--------

901-985

Cold Air Induction Kit by Cobalt ②

The MX-5 Miata Cold Air Induction System allows your car to breathe clean, cool air for maximum horsepower, up to 14 HP in most cases. A strategically placed scoop brings cold air into the throttle body with increased velocity to increase your horsepower. Each system includes a high-velocity air filter for increased airflow and filtration.

Note: CARB approved.

AFE Takeda Momentum Cold Air Intake System w/Pro DRY S Media ②

The Momentum Cold Air Intake System is dyno-tested and street-proven. To maximize available air volume, the unique filter-to-housing interface was built to feature the largest air filter possible: a 7-1/2" tall 360 degree radial flow air filter made of washable oil-free Pro DRY S media. Three layers of synthetic material provide excellent filtration and dust-holding capacity.

The intake tube and one-piece sealed housing are made of durable, heat-resistant polyethylene (XLPE), and the large, clear window allows for hassle-free filter inspection without having to disassemble your system.

An auxiliary air inlet can be used, or closed with a supplied plug.

Features:

- Dyno-tested gains up to +13 HP and +12 Lbs x Ft TQ
- Outflows Factory Intake by 28%
- Measured Flow is 255 CFM at 7" H2O
- Sealed housing captures cool air directly behind front grille
- Oversized tube with import-inspired design
- Fast and easy installation
- Washable and reusable Pro DRY S Air Filter for maximum convenience

Note: Not CARB approved.

---	---------	--------

AFE Silver Bullet Throttle Body Spacer ②

Silver Bullet throttle body spacers regulate air flow into the intake manifold which increases horsepower and torque by providing the correct amount of air into the combustion chamber - improving throttle response and fuel efficiency.

Constructed out of durable T-6061 billet aluminum, Silver Bullet throttle body spacers use a unique serrated helix entry to create turbulence, increasing air pressure while eliminating the annoying whistle helix-only throttle spacers create.

Note: Not CARB approved.

Stage 2 Intake System by DDM Works ②

The Stage 2 fully-enclosed cold air intake for the naturally aspirated Miata replaces your stock restrictive air box and crossover tube with a beautiful stainless steel, fully-enclosed intake. The system includes a T304 stainless steel crossover tube, K&N filter and all hardware.

Note: Not CARB approved.

99-05 Stage 2 Intake	904-365	429.99
----------------------	---------	--------

Performance Intake with Heat Shield by DDM Works ②

Replace your Miata's restrictive air box with a beautiful stainless steel heat shield and free flowing foam filter. It is a simple way to add a nice growl to your Miata and gives you some stylish under hood looks! Keeping the engine heat away from your air intake - cooler air means more power. 99-05: Will not fit ABS equipped cars without relocating the washer bottle.

Note: Not CARB approved.

Turn Signal Intakes by Cobalt 2

We have taken our fan favorite turn signal intakes and made them even better. We have improved the fit to better conform to the shape of the factory turn signal lamp. We also improved the finish; they are now a smooth matte-black and ready to bolt on. If you do intend to paint match to your car we still recommend professional prep and paint work. Replace your front turn signals with a pair of these clever intakes that supply cool air into your engine compartment while retaining the turn signal bulb function! The molded black urethane scoops give your Miata an aggressive look and incorporate the turn/park lamp assemblies so that function is retained.

Note: Will not work on Canadian cars or cars with daytime running lights.

Miata Induction Kits by Ramair 2

With a motorsport heritage stretching back to 1981, RamAir is one of the world's leading air filtration specialists. Designed to fit a 1.6 or 1.8 NB Miata, this Ramair induction kit improves the air flow of your car. Replacing the standard restrictive stock part, it enhances cool air induction and improves your car's performance and throttle response - giving your turbo sound a boost too.

- This full fitting kit comes with:
- Black powder coated heat shield
- Black powder coated intake pipe
- Black silicone elbow and coupler
- Ramair foam filter
- Easy step by step instructions

Note: Not CARB Approved.

Coolant Reroute Kit by Cobalt[®] 4

We understand why Mazda did it. The Miata was initially designed for a front wheel drive layout and the coolant route started and ended at the same side of the engine. Great for packaging, but not ideal for coolant flow. Development was too far along to make a change. Our Coolant Reroute Kit cleanly and efficiently moves the exit to the rear of the motor, where it belongs.

Our kit comes with a custom bent stainless steel EGR tube and a machined thermostat housing spacer. This spacer retains the factory coolant temp-sensor locations for ease of installation. Our custom one-piece coolant hose is made of high-grade, long-lasting silicone. Includes all the gaskets, hardware and instructions.

Note: This kit does not include a thermostat, but we do recommend that you change it at this time. Use the stock thermostat (999-027).

----------------------	---------	---------------

Coolant Reroute Kit by I.L. Motorsports[®] 4

The Miata engine was originally designed for a front wheel drive car. To make a front wheel drive engine work in the Miata's rear wheel drive chassis the engineers had to move a lot of stuff around. One of the things they moved was where the coolant exits the engine; they moved it from the rear of the engine to the front. This works great for packaging but it is not ideal for the flow of coolant through the cylinder head. The I.L. Motorsports coolant reroute kit fixes this issue by moving the exit of the coolant to its original location at the back of the engine. This gets you lower and more consistent cooling temperatures over the stock system. The I.L. Motorsports reroute kit gets you those lower temperatures with a custom, cast aluminum remote mount thermostat housing, a custom silicone coolant hose and a custom aluminum guide for the extra-long coolant hose.

RACING

Pro-ST Coilovers by Skunk2 ③

Get the best single adjustable suspension-system on the market with the Skunk2 Racing's Pro-ST Coilovers for Mazda Miata NA, NB, NC, and ND models.

Especially engineered for club racers and discerning high performance street car owners, the Skunk2 coils boast 12-way dampening, mono-tube design, and threaded shock bodies with independent height/spring pre-load adjustment. The billet radial bearing upper-camber mounts offer this suspension system all the control without losing ride quality.

These affordable coilovers come with a host of features to take your racing experience to the next level:

- Mono-Tube Design
- 12-Way Adjustable Dampening
- One-Piece Forged Shock Body
- Micro-Polished Oversized Piston Shaft
- Independent Pre-Load/ Ride-Height Adjustment
- Reduced Shaft Stroke for Full Suspension Travel on Lowered Vehicles
- Billet Aluminum Spring Perches
- CNC Wound SAE9254V Racing Springs

WHITELINE

Whiteline boasts a worldwide reputation as a leading manufacturer of replacement, enhancement and performance suspension components that deliver significant gains in vehicle balance, steering precision, grip levels and outright driving performance.

Solid Adjustable Sway Bar Kit by Whiteline Performance ②

Whiteline Swaybars make your car more responsive by adding rigidity, making your suspension system and tires perform better by delivering more grip without reducing ride comfort. This Whiteline Swaybar kit is made from solid high-carbon spring steel. The front bar is 24mm in diameter with 2 points for adjustability while the rear bar is 16mm with 3 points of adjustability, allowing you to play with the level of stiffness. Both come with high performance Synthetic Elastomer mounting bushes in a DIY kit form - ready to be bolted on.

Features:

- Solid construction spring steel, cold rolled
- Powdercoated in Silver Sparkle II
- Includes polyurethane bushings
- Front Whiteline End Links included
- Comes with vehicle specific instructions
- Warranted by Whiteline, lifetime warranty on bushings, 3 years warranty on sway bars

90-97 22mm Front/16mm Rear	902-679	475.99
----------------------------	---------	--------

Whiteline Adjustable Sway Bars ②

Whiteline Swaybars are manufactured using the finest grade Australian spring steel. They are powder coated and supplied with high performance Synthetic Elastomer mounting bushes in a DIY kit form, ready to simply bolt on.

Adjustable sway bars allow their stiffness to be altered by increasing or reducing the length of the lever arms. This permits the roll stiffness to be tuned for different situations without replacing the entire bar. The stiffer the bar, the more force required to move the left and right wheels relative to each other. This increases the amount of force required to make the body roll.

90-97 Front Sway Bar - 24mm	902-681	328.99

Springs and Coilovers by TEIN ③

In Yokohama, Japan, the workers at TEIN focus on their service statement that they build parts for all drivers in search of total driving pleasure. In fact, TEIN comes from the initials 'TE'chnical 'IN'novation and that's exactly what you're getting from this brand as the suspension upgrade choice for your Miata. Founded by two rally racers in the 1980s who decided to build their own components after other brands couldn't stand up to their style of driving, their passion to continually innovate is at the heart of TEIN. We carry four different products so you have options in both adjustability and pricing.

909-915

S-Tech Spring Set by TEIN ③

To be used with any brand of strut, these springs are designed to slightly lower your Miata while retaining a pleasant road feel. 1990-2005 Miatas can expect approx. 1" drop, 2006+ Miatas slightly more. See MossMiata.com for specific spring rate and ride height information.

90-97 S-Tech Spring Set	909-920	229.99
99-05 S-Tech Spring Set	909-921	209.99
06-15 S-Tech Spring Set	909-922	254.99

Street Basis-Z Coilover Kit by TEIN ③

Designed to provide a sporty feel and aggressive stance. The shortened shell case provides optimum damper stroke at lower than standard ride height.

- Steel construction
- Twin tube internal construction
- Ride height adjustable via spring seat
- Basis-Z struts are not rebuildable

90-05 Street Basis-Z Coilover Kit	909-901	769.99	OS
-----------------------------------	---------	--------	----

Street Advance-Z Coilover Kit by TEIN ③

Same shortened shell case as the Basis kit, the Advance kit is designed for the same ride and stance as well, but includes damping force adjustment.

- Steel construction
- Twin tube internal construction
- Ride height adjustable via spring seat
- 16-way damping adjustment
- Advance-Z struts are not rebuildable

90-05 Street Advance-Z Coilover Kit	909-906	879.99	OS
-------------------------------------	---------	--------	----

Street Flex-Z Coilover Kit by TEIN ③

Designed to be the ultimate in coilover adjustability. Features a full-length threaded damper body to offer separate spring preload and ride height adjustment, with camber adjustability for the front struts.

- Steel construction
- Twin tube internal construction
- Full-length adjustable via threaded body and spring seat/seat locks
- 16-way damping adjustment
- Front struts are camber adjustable
- Flex-Z struts are not rebuildable

90-05 Street Flex-Z Coilover Kit	909-915	1,140.00	OS
06-15 Street Flex-Z Coilover Kit	909-916	1,110.00	OS
16-24 Street Flex-Z Coilover Kit	909-917	1,110.00	OS

Solid Adjustable Sway Bars by Jackson Racing ②

Increase the handling performance of your Miata by reducing sway and body roll. Jackson Racing sway bars directly replace the factory bars and allow adjustment so you can tune the car to your ride height.

Note: Polyurethane bushings and all mounting hardware are included.

90-93 Front 22 mm/Rear 16 mm	999-700	289.99
------------------------------	---------	--------

Chassis Braces by I.L. Motorsport ③

When your performance driving habits require the ultimate in chassis strengthening, look no further than the solutions from I.L. Motorsport. All pieces are made from lightweight aluminum to keep performance to a maximum (rear PPF bar is steel). Four pieces go under your Miata, one in the engine bay, and one in the trunk. Keeping the convertible's chassis stiff helps the rest of your performance suspension perform at it's best.

I.L. MOTORSPORT

THE ***MOST*** IMPORTANT BOLT ON A MIATA MX5

Alignment Bolt Kit by Mazda ③
Worn out alignment bolts, or camber bolts, can cause your alignment to slip out of spec leading to inconsistent handling and tire wear, so when you are refreshing your suspension it's a good idea to replace your alignment bolts. Sold individually and each car will need 8 bolts.

90-05 Alignment Bolt Kit	901-030	14.99
---------------------------------	---------	--------------

Rear Shock Tower Brace by I.L. Motorsport ③

Improve your ND Miata's cornering behavior by triangulating the chassis at the rear shock towers with this very light weight shock tower brace.

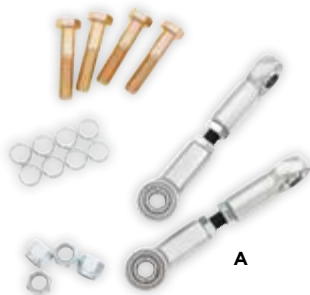

16-24 Rear Shock Tower Brace	910-490	219.99	OS
-------------------------------------	---------	---------------	-----------

COBALT
PRECISION AUTOMOTIVE

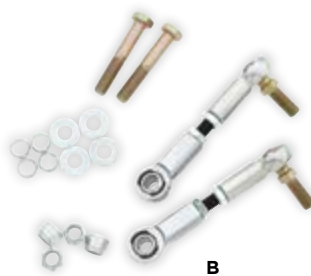

Tubular Adjustable Sway Bar Set by Cobalt® ③

The third generation Miata handles well from the factory, but Mazda had to compromise in order to meet the expectations of all potential drivers. As a result, Mazda left room for improvement even in the suspension of cars with the factory Sport package. The addition of Cobalt hollow sway bars will reduce your Miata's body roll, making your Miata more responsive to turning, more settled in transitions, and more fun to drive. The stiffness has been carefully chosen to enhance handling and balance without ruining your ride quality. The rear bar is two-position adjustable.

Cockpit Brace by Cobalt ②

Get the benefit of improved handling and chassis rigidity with a brand-new cockpit/seatbelt tower brace. Featuring the Cobalt logo, this brace looks great and is better than the stock version. Now available in black at a pocket friendly price.

90-05 Cockpit Brace	909-045	114.99
----------------------------	---------	---------------

shown without carpet

Rear Shock Tower Brace by Cobalt ③

Engineered to work with and match Cobalt's 3-Point Front Shock Brace, this Cobalt Rear Brace is sturdy and beautiful. Using strong oval section stainless steel tubing this bar ties the tops of the strut towers together for better chassis rigidity. The welds are artfully done and the Cobalt logo is prominent yet understated. This design goes up then over to the strut towers instead of other designs that come forward into the trunk space, keeping all of your trunk storage open and available. Comes complete with instructions and all necessary hardware.

90-05 Rear Shock Tower Brace	909-860	149.99	OS
-------------------------------------	---------	---------------	-----------

Front Adjustable Shock Tower Brace and Quick Release Kit by Whiteline ①

You can never have too much stiffness. Weight aside, the more the better. Chassis bracing maintains alignment angles and spring rates by greatly reducing body or chassis flex. In fact, it helps every component in the suspension system do its job properly and you can feel the difference through improved turn-in, sharper steering response along with greater steering feedback.

If you have to regularly remove your shock tower brace to work on your engine, these Whiteline Quick Release Clamps will save you time and effort. No more uninstalling and reinstalling, add these clamps to any Whiteline Shock Tower Brace for a quick and easy removal method. Sold Separately.

90-05 Front Adjustable Brace	902-668	180.99
90-05 Quick Release Kit	902-680	31.99

Rear Chassis Jacking Bar by DaveFab ②

The Miata jack bar is a really cool and functional accessory for any Miata enthusiast. Serving both as a jacking point and a brace, it protects your car from taking any damage while giving you easy access and maneuverability under the car, when you work on it. Fabricated from laser-cut strong CDS roll cage tubing, this Rear Chassis Brace bolts to the original factory tow hook locations using factory fasteners. Fully bead blasted, zinc primed and powder coated for optimum corrosion protection, the bar is finished in our signature satin texture black. It is 100% compatible with the original bumper, and retains rear bumper support.

90-97 Rear Chassis Jacking Bar	908-150	224.99
99-05 Rear Chassis Jacking Bar	908-151	219.99

Shock Tower Brace by DaveFab ②

Fusing style and performance, this shock tower brace reduces body roll and improves steering responsiveness, allowing for more precise handling on curves and at high speeds. The Shock Brace mounts in 3 places, tying the front shocks to the firewall and adding superior rigidity to your chassis. It is built with circular section tubing and reinforced corners with a black powder finish for that classic DaveFab look.

16-24 Shock Tower Brace	908-323	679.99	OS
--------------------------------	---------	---------------	-----------

904-656

2-Point Shock Tower Brace by Cobalt ②

Strong, Sleek, and Beautiful - the Cobalt Shock Tower Brace with a two-point design is the perfect upgrade for your '90-05 Miata. Using strong oval section stainless steel tubing, this brace ties the tops of the shock towers together for better chassis rigidity. The welds are artfully done and the Cobalt logo is prominent yet understated. Compared to the three-point design braces, this upgrade with its simpler two-point design can be installed on cars with ABS too! Give your Miata the advantage of a stronger chassis with the two-point shock tower brace.

If your brake pedal is spongy add our brake master cylinder brace to your new two point shock tower brace to keep your firewall from flexing and get firmer pedal feel.

90-05 Shock Tower Brace	904-656	249.99	OS
00-05 Brake Master Cylinder Brace	904-658	59.99	

SUPER STRONG BRACE

STAINLESS LOOKS GREAT

Chassis Braces by Cobalt ②

Tie your lower body structure together for better handling and a smoother ride. Installation is simple and straightforward.

A. 90-93 Front Brace	902-040	59.99
B. 90-91 Rear Brace	902-045	39.99

Frame Rail Braces by Cobalt ②

The original frame rails on a low-slung Miata are fairly easily damaged and every time they are bent the car loses structural strength. Frame rails are integral to the chassis, and a weak or flexible chassis will shudder and flex. On the other hand, a stiff chassis gives your suspension a solid platform to work from, leading to better, predictable handling and improved ride quality. With these all-new Frame Rail Braces by Cobalt, you can resolve both issues. Just bolt these sturdy braces over the factory frame rails for added stiffness and protection. The rails and the fasteners are stainless steel to prevent corrosion, and are strong enough to serve as jacking points. Sold as a pair.

Note: No welding is required for installation. 24 holes need to be drilled in the car for the system to be securely bolted in.

90-05 Frame Rail Brace Pair	909-348	229.99
-----------------------------	---------	--------

904-651

3-Point Shock Tower Brace by Cobalt ③

Strong oval section stainless steel tubing is mated to beautifully crafted tower supports. Patterned after Le Mans style chassis bracing, this piece mounts in three places including a special bracket that secures it to the firewall. This ensures rigidity that cannot be duplicated by lesser quality braces that simply mount from shock tower to shock tower. Comes complete with instructions and all necessary hardware.

Note: Reinforcement plate needed for some models. Details online.

90-05 Shock Brace ¹	904-651	289.99	OS

COBALT
PRECISION AUTOMOTIVE

Delrin Replacement Door Bushings by Cobalt ①

This is one of the easiest and cost effective ways to add chassis stiffness to your Miata and reduce door rattles. When your door closes the latch holds it shut but there is also the metal cup on the door that fits around a bushing. This makes your door part of the structure of the chassis. Changing out your old, soft, rubber, factory bushings for a set of our Cobalt delrin replacements stiffens the car and greatly reduces rattles. Your first ride over a set of train tracks will amaze you. Our set includes two delrin bushings, one for each door.

Note: To achieve a perfect fit, take this opportunity to replace the door cups that this bushing fits into, the Dovetail Latch, with our OEM replacements.

90-24 Delrin Door Bushings-Set of 2	910-803	29.99
90-24 Dovetail Latch - Each	910-804	6.99

910-804

ENERGY
SUSPENSION

Polyurethane Bushings by Energy Suspension ③

OEM rubber bushings break down with age, which makes your suspension feel sloppy. Switching to polyurethane bushings will not only get rid of that sloppiness but offer a more precision and consistent handling with less deflection and no pre-loading. Upgrading to polyurethane will not only make your Miata handle better but you will never have to replace these bushings again as Energy Suspension's Hyper-Flex polyurethane will not break down like rubber bushings. Energy Suspension's Hyper-Flex polyurethane formulation is unique and so highly advanced that it has been awarded nine U.S. Patents.

Note: Comes with installation instructions.

High Performance Rotors by Cquence ²

Moss is proud to offer the Cquence brand as a lower-cost alternative in our performance brake parts line. Machined in the USA, rotors are made from high quality G300 cast iron. Slotted or cross-drilled and slotted rotors decrease stopping distance and minimize brake fade. OE fit and finish, includes all OE details and standards for excellence. One Year Manufacturer Warranty on warping or cracking.

Performance Brake Pads by EBC ②

At the track or on the street, serious drivers trust EBC Brake Pads to stop their rides.

YellowStuff - The "bite" from cold is superb which is uncommon with race materials (normally requiring warm-up) and makes this a pad that can be safely used on the highway as well as on the race track.

RedStuff - Emits far less dust than semi-metallic pads, and features EBC Brake-In surface coating which conditions the rotor surface and accelerates pad bed-in.

GreenStuff - The EBC organic pad material creates less dust which is more easily washed off than most.

BRAKES

Brake Pads by Hawk ②

Hawk HP Plus pads are made from Ferro-Carbon making them race worthy for autocross, club and driving school events. Due to the friction increase produced by these pads, rotor wear and dust may be increased.

Hawk High Performance Street (HPS) compound offers a higher coefficient of friction over stock pads and provides more stopping power and higher resistance to fade than other standard replacement pads.

Front Big Brake Kits by Wilwood ③

Trust the Wilwood name to make your high-performance Miata stop on a dime! No modifications needed to OEM master cylinder or ABS systems. Front brake kits only. Most kits include everything you need for installation including instructions. Kits come with Wilwood's BP-10 pads, replacements are available in track BP-20 compound as well. For more information visit MossMiata.com.

90-05

Kits feature 4-piston calipers in red or black powdercoat and your choice of huge 11" vented or cross-drilled and slotted rotors. Stainless lines must be purchased separately.

06-15

Kits feature huge 6-piston calipers in red or black powdercoat and rotor options: choose from slotted, or cross-drilled and slotted, and big 12.88" or massive 14" diameters. Stainless lines are included. The 12.88" rotor kit includes a wheel spacer for stock 17" wheel fitment. The 14" rotor kit requires aftermarket 18" wheels.

16-24

These kits feature big 12.19" or massive 12.88" rotors, large 4 or HUGE 6-piston calipers in red or black powdercoat and your choice of slotted or cross-drilled/slotted rotors. These are designed by Wilwood specifically for the 4th gen Miata MX-5, with simplified installation and are completely compatible with your OEM master cylinder and ABS.

Speed Bleeder Screws by Russell ①

Bleeding your brake or clutch line has never been easier or simpler! Revolutionary double-patented Russell Speed Bleeder replaces the original bleeder valve in your caliper/wheel cylinder with a spring-loaded one-way ball and check valve design. This unique design opens to allow the old fluid and air out, then closes automatically between pumps to prevent the old fluid and air from re-entering the line. It's a real time saver!

Makes bleeding brakes a one person task

- Sold 2 per package
- Uses OEM style sealing area to guarantee a positive leak-proof seal
- Dust protection cap is standard with each bleeder screw
- Speed bleeders permanently replace original bleeder screw

Lightened Aluminum Flywheel by Fidanza ④

CNC-manufactured from 6061 T6 aluminum, these flywheels increase performance while reducing stress on your crankshaft and bearings. And, if you're thinking about installing a new clutch, install a flywheel at the same time. You won't regret it!

90-93 Flywheel (7.4 lbs)	901-000	349.99
94-05 Flywheel (8.3 lbs)	901-005	399.99
06-15 Flywheel (8 lbs)	904-480	399.99
16-24 Flywheel (8 lbs)	904-481	399.99

Billet Aluminum Cam Gears by Fidanza ③

Fidanza adjustable cam gears are made from 6061 T6 billet aluminum for strength and weight reduction. The gears feature 12 degrees of adjustments while most only feature 10, so you can tune your Miata's engine for the best power output. CNC machined for precise fit and finish, and the outer gear is hard anodized for strength. Sold each.

90-97 Intake or Exhaust - Silver	994-020	179.99
99-00 Exhaust Only - Silver	994-020	179.99

Lightweight Flywheels by ACT ③

ACT XACT flywheels provide significantly improved engine response, acceleration and a higher degree of safety than the original stock flywheels. This one-piece design allows less opportunity for failure. Provides uniform and efficient heat transfer from the clutch, and eliminates warped inserts and loose ring gears.

Key Features:

- Quicker acceleration and increased throttle response
- Maximum gear life - gear will not wear out or fall off
- Serviceable - can be resurfaced with no need to purchase additional parts
- Longer lasting because of heat treated friction surfaces
- Super rigid trouble-free single piece design
- SFI certified to ensure safety
- ProLite (9 lbs)

94-05 ProLite - 9 lbs ¹	904-555	379.99
06-15 Streetlite - 10.4 lbs	904-557	424.99

¹ Fits 1.6L upgraded with 1.8L clutch

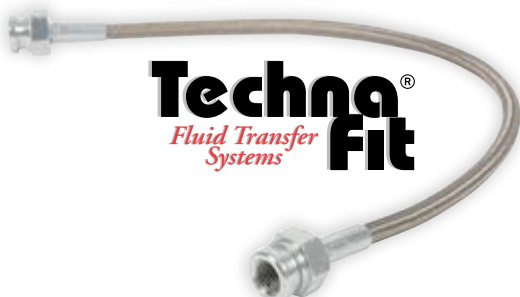

Stainless Clutch Line by TechnaFit ③

Over time and under continuous use, OEM rubber lines can swell and expand, exposing the driver to clutch fade. The rubber covers can also deteriorate and cause a failure.

Note: These stainless lines are DOT approved.

909-561

Performance Cooling by Mishimoto ③

Smartly engineered as a high quality replacement with some minor modifications required, these all-aluminum radiators have no plastic parts to fail (OEM radiators do). The replacement 2 row radiator performs exceedingly well while still allowing the OE fan shroud to be used. The 3 row radiator gives you more cooling capacity but some OE fan shroud modification will be necessary (more info online). Aluminum fan shrouds are sturdier than their stock plastic replacements, are one-piece for superior air directing qualities, and even have the fans and motors already installed. These pieces cost significantly less than buying factory parts - plus, cool better than stock and will last longer! These are not compatible with Track Dog Intercoolers.

- Includes 1.3 Bar high pressure radiator cap which effectively raises the boiling point of your engine coolant, providing a safer and more efficient system
- Includes Magnetic Drain Plug to capture and metallic debris in your cooling system
- Radiators designed to fit stock locations
- Fan shrouds have fans & motors installed
- Minimal modifications to fit (more info online)
- Radiators come with new cap
- Limited Lifetime Warranty

Aluminum Radiators by Koyo ③

These all aluminum performance radiators by Koyo will recalibrate your definition of the word "Quality". These radiators were superbly crafted around Koyorad's innovative 36 mm Hyper V-Core Series aluminum core (NA, NB and NC), or the KH Series high density 25 mm core (ND), which were developed specifically for vehicles that see extreme heat and have limited space. These cores have a specially designed fin and tube pitch that significantly increases its surface area while allowing for excellent air circulation through the radiator. The radiators are designed to be "Plug-N-Play", using all OEM mounting, hardware, drain plug and cap. Manufactured by Koyo, and held to the highest standards of quality control, this performance aluminum radiator is the perfect solution where space saving and high performance is a must.

Note: Intended for manual transmission only.

Drain plug is included.

908-215

Radiator Cooling Panels by Cobalt ①

Experience optimal cooling performance during track or spirited driving with radiator cooling panels by Cobalt! Maximizing airflow through the radiator, the cooling panel forces air through the radiator, preventing it from escaping up and into the engine bay, reducing engine temperatures.

These lightweight, aluminum panels sport a precision laser-cut profile, and bolt onto factory mounting points using stainless-steel fasteners for a perfect fit. Finished in a stealthy, textured, black powder-coat, or a brushed silver these sleek panels not only look cool but keep your engine cool too. Sold individually.

Aluminum Radiators by Cobalt ③

Get every ounce of cooling efficiency from the brand new aluminum radiator by Cobalt. Made using the highest standards of quality control, this radiator is the best merger of design and performance. Unlike the plastic-tanked stock radiators, it offers long life along with excellent air circulation for a maximized cooling effect. Designed to work well with the OE fan, this bolt-on radiator simply drops in for a proper fit offering easy installation. Intended for manual transmission only. Give your Miata the benefit of a Cobalt radiator!

Note: 908-141 will fit 99-00 cars without air conditioning.

907-305

Engine Shield by Cobalt ②

Cobalt engineers have developed an upgraded shield for protection and air flow without the flaws of the plastic material Mazda uses. Using stainless steel construction to ensure it is a rock solid addition to your Miata, the Cobalt engine shield will perform the same functions as your original under shield - only better. The Cobalt shield reuses the factory bolt and screw locations. If you want to replace those grungy OEM bolts, upgrade to the Bright Bolts and Screws kit (part# 907-302) to really finish off the beautiful look.

Note: 99-00 Need spacer kit (part# 907-304) for clearance of the AC system.

Evo 2 Skid Plate by Pro Shop Noble ③

New and improved design!! Whether you're rocking a slammed Miata or stock, there's a good chance your undercarriage has occasionally flirted with the pavement. While this might not be an everyday occurrence, scraping the bottom of your car on pavement can potentially cause serious damage to your oil pan, subframe, and power steering rack. By using this easy-to-install skid plate, you're ensuring that these important aspects of your car are protected, while simultaneously bracing your front end a bit. Now, you might be thinking, "Okay great, but am I going to have to take this off every time I change my oil?" Well, the kind folks at Noble Pro Shop already thought of that and conveniently cut out the area just underneath your oil drain bolt.

- **WARRANTY** 6 Years Long

1 PICK YOUR STYLE

FACTORY

ZIPPERED WINDOW OPTION

- Zippered window option: Just like OEM, this option lets the interior feel more open without putting down the top
- Deck seams: To look exactly like the factory top, the seams are double sewn and heat sealed
- OEM look, Robbins high quality!

STREAMLINE

SLEEK ONE-PIECE DESIGN

- Sleek one-piece design with incorporated window and no deck seams gives this top a streamlined look
- Zipperless window makes putting your top up or down easy and quick

PANORAMA

WINDOW IS 22% BIGGER

- Plastic window is 22% larger than other style tops for greater visibility, great for use with roll bars
- Otherwise looks exactly like a factory style top
- Available in both Vinyl or Canvas

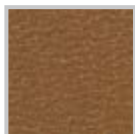

2 CHOOSE A MATERIAL

VINYL

Made from Haartz 38 oz. Cabrio Grain vinyl, the same weight and patterned grain found on original Miata tops. Backing is 100% Polyester for strength and pliability, and bonds better to vinyl. Cotton backing used by other companies is less expensive but shrinks and becomes brittle over time.

Black

Tan

Light Tan

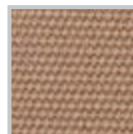

Blue

STAYFAST CANVAS

Robbins' Stayfast canvas, the most luxurious top fabric available, has a practical side as well. Stayfast canvas resists fading and shrinking better than vinyl and stretches much easier in colder temperatures. This means you don't have to be Hercules to put your top up on a cool morning.

Black

Tan

Blue

Red

Call to Order: 800-642-8295

3 CHOOSE A WINDOW

PLASTIC WINDOW

On all 4 tops: ultra-clear 40-gauge UV coated plastic will hold up to UV damage and common scratches

STANDARD GLASS WINDOW

Option on Factory and Streamline tops; tinted and tempered for safety, installed with proprietary Infinity Integrated Window System

DEFROSTER GLASS WINDOW

Option on Factory and Streamline tops; adds the convenience of a built-in defroster and retains the tinted and tempered safety glass of the Standard window

4 RAIN RAIL: YES OR NO?

Yours is probably brittle with age, let Robbins do the installation for you.

MOSOM PLUS

SILVERGUARD PLUS

SATIN STRETCH

STORMPROOF

Mosom Plus Car Cover by Coverking

Mosom Plus is designed to protect your Miata in rain, light hail and snowy conditions. It is the only multi-layered, non-woven car cover available and is extremely durable. The Mosom Plus car cover is designed to have the least number of seams to prevent water leakage. Fabrics are double stitched with wax-treated threads for maximum protection against leaks. The Mosom Plus car cover has a top polyester layer which acts as a UV inhibitor to protect your vehicle from damaging sunlight. The highly breathable inner layers of polypropylene and polyester provide water resistant properties for the cover. The innermost layer of polyester felt embraces your vehicle's finish with a soft touch. With superb UV resistance, breathability, and water resistant features, the Mosom Plus car cover is an ideal choice for moderate and rainy weather climates.

Satin Stretch Snug Fit Car Cover by Coverking

The Satin Stretch car cover is like a silky, sexy dress for your Miata - it shows every curve. Satin Stretch custom car covers are made for Miatas parked indoors, and for owners who want nothing but the best for their vehicle. The material has Lycra fibers that stretch in every direction, mirroring every contour of your Miata. The inner liner is the softest fleece available - specially designed not to rub off on convertible tops.

SEAL SKIN COVERS
MANUFACTURED DIRECT

UNIVERSAL CAR COVERS BY SEAL SKIN

The 5-Layer Seal Skin Supreme offers protection from all the elements you might encounter, is designed with SEAL-TEC technology and backed by a manufacturer 10-year warranty. It's waterproof, durable and provides excellent protection against rain, sun, snow and hail. SEAL-TEC fabrics promote superior air circulation preventing mold, mildew, musty odors and paint damage. With universal fitment for the Miata, this car cover is perfect for cars that have a slightly bigger wheel, fender, lip, or spoiler setup compared to stock.

- SEAL-TEC Technology (outperforms typical 5 layer covers)
- 10 Year Warranty (covers rips, tears, waterproof and breathability)
- Protects Against Extreme Weather (rain, sun, snow and hail)
- Hail and UV Resistant and 100% Waterproof
- Soft Fleece Interior Lining
- Breathable (protects against mildew, odors and paint damage)
- Ultrasonically Welded Seams
- Built in elastic hem for a snug fit
- Reinforced Grommets
- Free storage bag
- Security cable with lock and key included

The 3-Layer Seal Skin Elite provides amazing protection at a great price. The high-grade polypropylene fabric provides an excellent defense against mother nature's harsh elements. The cover is water resistant, tough, durable and backed by a 5-year warranty. The breathable fabric prevents mold and mildew. With universal fitment for the Miata, this car cover is perfect for cars that have a slightly bigger wheel, fender, lip, or spoiler setup compared to stock.

- High Grade Polypropylene Fabric
- 5 Year Warranty (covers rips, tears)
- Water & UV Resistant
- Breathable (protects against mold, mildew and musty odors)
- Snug Fit (built in elastic hem)
- Reinforced Grommets
- Free Storage Bag
- Security cable with lock and key included

COVERGUARD

Best Value

Coverguard Car Cover by Weatherlock

Features include double-stitched seams with neoprene elastic sewn in the front and rear bases for a snug fit, and scratchproof grommets for locking or tying down your cover. An economical material but with a body-specific fit for easy installation. Single layer material - best for dust prevention and short term use. Suitable for indoors and outdoor use in covered areas.

900-969

905-365

“R” Package Look Front Air Dam & Rear Valance ②

Give your NA Miata the aggressive R Package look with a front air dam and rear valance! No longer available from Mazda, these aftermarket versions look perfect and are made from black polyurethane that's ready to install or can be painted. Comes with mounting hardware.

90-97 Front Air Dam	900-969	189.99	OS
90-97 Rear Valance	905-365	159.99	OS

Headlight Air Intake Lid by Jass Performance ②

Engineered to maximize the possible cold air inlet, the Headlight Air Intake Lids by Jass Performance deliver additional cold air to the engine. Made of fiberglass, the intakes sport a weather-resistant black gloss finish. This bolt-on solution comes with integrated side brackets for OEM installation. The lid intake follows the initial curvature lines of the car and is compatible with NA Miata models.

90-97 Driver Side	905-255	184.99
--------------------------	---------	---------------

Club Package Side Skirts ②

Add these new custom side skirts to your Miata. Made of polyurethane, these side skirts are strong, durable and have the right amount of flexibility. Compared to the pricey, original factory parts which are brittle and prone to breakage, these budget-friendly skirts are pliable enough to not chip or snap easily.

16-24 Side Skirts	908-315	219.99	OS
16-24 Rear Diffuser	906-430	169.99	OS

Club Package Exterior Upgrades ③

These new accessories add an aggressive sporty appeal to your Miata. Made of polyurethane, these parts are strong, durable, and have just the right amount of flexibility. Compared to the pricey, original factory parts which are brittle and prone to breakage, these budget-friendly pieces are pliable enough to not chip or snap easily. Available in gloss black, they can be painted to match your Miata.

906-432

Custom Rear Spoiler ②

If you like the look of the factory ND trunk spoiler but wish it was a bit more pronounced, we have the solution. Our new lip spoiler will give your Miata a slightly more aggressive look, with a longer and more pronounced lip. Made of either light carbon fiber or durable ABS plastic, this rear lip spoiler is designed specifically for your ND. For those of you with the factory Club package, this trim will compliment it perfectly, as it has the same high-gloss finish. Installation is simple, just clean, align, and adhere, and you are good to go in as little as five minutes! You will find this lip spoiler superior in terms of its quality and finish, especially compared to other aftermarket counterparts.

16-24 Gloss Black	906-431	159.99
16-24 Carbon Fiber	906-432	269.99

906-431

Front Air Splitters by Track Dog Racing ②

At speed the Track Dog Racing Air Splitter increases the down force on the front of your Miata lowering the center of gravity and giving the front tires more grip. As oncoming air hits the front of your Miata it creates a high pressure zone. The air splitter sends the majority of this high pressure air over and around your Miata to give it down force. The air that does go under your Miata has to increase in velocity which creates a low pressure area to further increase the down force. Includes all mounting hardware. Recommend painting for best appearance. For use with the factory front lower spoiler only. Radical splitters include turnbuckles. More info online.

¹ Fits MazdaSpeed

Side Skirts by RSPEED ②

A head-turning look that is actually functional - side skirts help create a bit of downforce and also work to prevent turbulence from getting under the car, keeping you more settled at high speeds. Made from durable ABS plastic, these skirts come unfinished black and ready for prep and paint. Attach with the existing fender bolts. Supplied with self-tapping screws to complete installation along the rockers.

90-97 Side Skirts	909-635	179.99	OS
-------------------	---------	--------	----

Factory Style Sport Package Front Lip Spoiler by RSPEED ②

This is an aftermarket version of the factory Sport Package lip spoiler that has not been available for some time. Very similar to OEM design, molded from ultra tough black polyurethane, all hardware is included. Supplied in ready to install black or you can prep for paint.

99-00 Sport Front Lip Spoiler	909-670	269.99
-------------------------------	---------	--------

908-222

JASS
PERFORMANCE

908-223

Tow Hooks by Jass Performance ①

The brand new tow hooks by Jass Performance are a step ahead of their counterparts both in terms of utility and quality. Specifically designed for your '06-'15 NC chassis, each metal hook offers a tight fit and works perfectly during towing situations. Offering a unique design and aesthetic appeal, you can easily install it on the front or back of your roadster with ease. A practical buy, choose your tow hook. Now available in black and red.

06-15 Tow Hook - Black	908-222	67.99
06-15 Tow Hook - Red	908-223	67.99

908-210

**Blue Tinted Convex Mirrors ③**

Upgrade your side view mirrors with these brand new convex mirrors! Offering a much wider angle view, the mirrors give you broader field of view in contrast to the stock mirrors. These high quality aftermarket replacements are built like the OEM, and have a blue tint which really looks cool and at the same time cuts down glare, making your drive easier. Practical, stylish and safer, these convex mirrors can be easily installed in a matter of seconds! Take off the old, pop in the new with the all-weather bonding that will keep the mirrors firmly in place. Both mirrors are convex. Objects in mirrors are closer than they appear.

Note: Sold as a pair.

06-15 Blue Tinted Convex Mirrors	908-210	124.99
16-24 Blue Tinted Convex Mirrors	908-211	124.99

**Mud Guards by I.L. Motorsport ①**

Stylish, yet functional, these mud guards fit great and install easily. Can also be painted to match. These factory-look pieces are now reproduced by IL Motorsport.

90-97 Front Pair- Black	900-325	74.99
90-97 Rear Pair- Black	900-335	84.99

**MAZDASPEED****Racing Tow Hooks by MazdaSpeed ①**

Designed to bolt right up to existing holes, these tow hooks are SCCA legal for racing applications.

90-97 Front & Rear - Pair	903-985	79.99
----------------------------------	---------	--------------

COBALT[®]
PRECISION AUTOMOTIVE

License Plate Relocation by Cobalt[®] ②

If your state requires you to mount your front license plate you need Cobalt's relocating kit. You'll get a unique look but the kit also moves the plate out of the air flow to the radiator. Three height options for the plate.

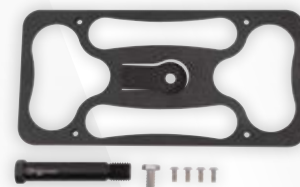

90-05 Plate Relocator ¹	904-530	69.99
16-24 Plate Relocator	910-745	89.99

¹ Does not fit MazdaSpeed

903-277

CS
CRAVENSPEED
PORTLAND, OREGON | EST. 2005

License Plate Relocation by CravenSpeed ①

If you don't like how your front license plate dominates the look of your Miata MX-5, you can relocate it with this product! This license plate mount uses the tow hook eye that's hidden behind the front bumper cover. It's very easy to install using the existing tow hook mount on your Miata, so there's no drilling needed! Moving your license plate away from the center of your grille also allows more air to flow into the radiator. Black powdercoated stainless steel will last a long time. Made in the USA!

06-15 License Plate Relocation	903-275	99.99
16-24 License Plate Relocation	903-277	99.99

Action Camera Mount By CravenSpeed ①

Mount your GoPro with the CravenSpeed Tow Hook Action Cam mount. Utilizing the factory towing eye receiver found in your front and rear bumper, this sturdy mount provides an extremely solid platform for putting up any GoPro camera. Speed does not always translate well on camera and sometimes autocross runs can end up looking like parade laps. Because this mount attaches at a low point on your ND, the resulting camera angle provides a better feeling of speed in your footage.

Tough and reliable, the CravenSpeed mount components are machined from solid 6061 aluminum and bolted together with stainless steel hardware. With suction cups not being very reliable, using them for your GoPro can result in expensive consequences, which is why the CravenSpeed bolt-on mount is such a great option. It offers a unique front bumper perspective allowing you to see the road as well as hear the engine noise. Get yours today!

16-24 Action Camera Mount	910-272	59.99
----------------------------------	---------	--------------

GoPro Antenna Mount by CravenSpeed ①

So simple, yet so smart. Unscrew your antenna and screw in this GoPro mount by CravenSpeed. Mount is solid aluminum anodized black. Strong, durable, and will last for years to come!

06-24 GoPro Antenna Mount	910-110	29.99
----------------------------------	---------	--------------

Flip Down License Plate Holder ①

No one wants to run a front license plate; it ruins the lines of the Miata. The Flip Down license plate displays or retracts in one easy motion. When motoring, pull it out and flip it up; when you're at the car show, retract it for the clean look you admire. Choose a motorized version that operates with the push of a button from inside or outside your car.

904-471

Fuel Door Kits by Tourist Trophy ①

Cast alloy fuel door kits are functional and stylish. Installed in about 10 minutes using existing mounting holes. Stock remote lid opener is retained.

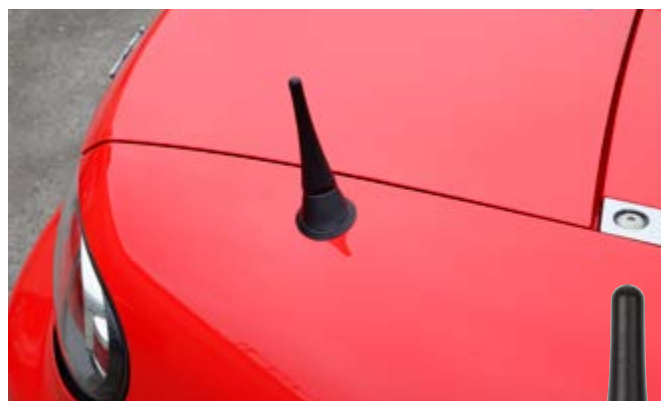

90-97 Chrome	904-172	144.99
99-05 Chrome	904-171	144.99
06-15 Chrome - Soft Top Only	904-414	149.99

Raked Shorty Antenna

Small, powerful, and mere 7 inches tall with a swept back look, our amplified antenna is a major design improvement over an unsightly standard mast or a noisy old power antenna. Comes with a 195" detachable cable, and the mast easily unscrews if you have a car cover without a hole.

90-05 7" Amplified	906-185	33.99
--------------------	---------	-------

Shorty Antenna ①

If you've ever thought that tall whip-like antenna might be a hazard to unsuspecting eyeballs or a future casualty at a drive-thru car wash, we've found a perfect solution. The shorty Antenna is just 3.77 inches tall, super easy to install (unscrew the old, screw on the new shorty!), machined from billet aluminum and then powdercoated for durability, and won't affect radio reception or interfere with satellite radio services. It blends in perfectly with the Miata's sporty lines but you'll notice it every time you look at your Miata. Works better with custom-fitted car covers too!

Note: Although most customers report their reception to be as good as stock, some have trouble with the full bandwidth in their areas.

06-24 Shorty Antenna ¹	909-676	23.99
-----------------------------------	---------	-------

¹ Also fits Fiat 124

Rear LED Running Light by MX5 Things ②

This simple kit includes everything you need to install an awesome LED strip to serve as an auxiliary red running light for your ND Miata.

16-24 Rear LED Running Light	910-273	75.99
------------------------------	---------	-------

Sequential LED Turn Signal Lamps

by I.L. Motorsports ①

When looking for an upgrade that combines safety and coolness, look no further. These sequential LEDs from I.L. Motorsport combine the dynamic yellow turn signal function and the white parking light in one sealed housing. The clean design perfectly matches the retro look of the NA model and immediately catches the eye of those in the know. The new LED technology allows for significantly improved visibility in traffic, especially when turning. The turn signals come with an E-mark and are therefore not subject to registration.

Sold as a pair and as a complete plug and play unit, you can install them in no time. Available in clear glass look with black inlay, the kit includes one left LED front turn signal and one right LED front turn signal

90-97 LED Turn Signal Lamps	908-308	279.99
-----------------------------	---------	--------

LED Taillights by ANZO ②

The Mazda Miata LED Taillights by ANZO are simple plug and play taillights with no modifications required. Rigorously tested for fit and function, these taillights use stock mounting locations and hardware - installing easily with common hand tools. Simple, straightforward, and stylish, these LED taillights are D.O.T. compliant to S.A.E. standards and guaranteed to improve the look of your vehicle. Sold as a pair.

90-07 Clear	902-966	224.99
99-05 Black	902-994	358.99

Clear Side Marker Lamps by RSpeed ①

Clear European side markers come with amber bulbs for DOT legality. Fits 90-97 front and rear, 99-05 front only.

90-05 Clear Lamps - Pair	162-890	44.99
--------------------------	---------	-------

LED Sequential Tail Lights ③

We don't usually think much about replacing the taillights, but once you get a look of this new, one-of-a-kind replacement taillight kit for your ND Miata, it's all you'll be able to think about every time you look at the back of your car!

Designed in Germany by Zymexx, the taillights feature a unique design and sequential lighting system that you won't find anywhere else. These bold and bright taillights sport high quality LEDs that shine bright through the dark smoke outer glass. This way you get to enjoy aesthetics of the tinted style, while driving with safe and functional taillights.

16-24 LED Sequential Tail Lights	910-115	1,049.99	FREE
----------------------------------	---------	----------	------

3rd Brake Light Pulser ②

Our small Miatas really benefit from small safety mods that catch other drivers eyes. This pulser module connects to your 3rd brake light and is triggered when you hit the brake pedal. The light will blink on and off for about a second and then stay on steady. A 15-second delay repeat circuit keeps the pulsing to a minimum in bumper-to-bumper traffic.

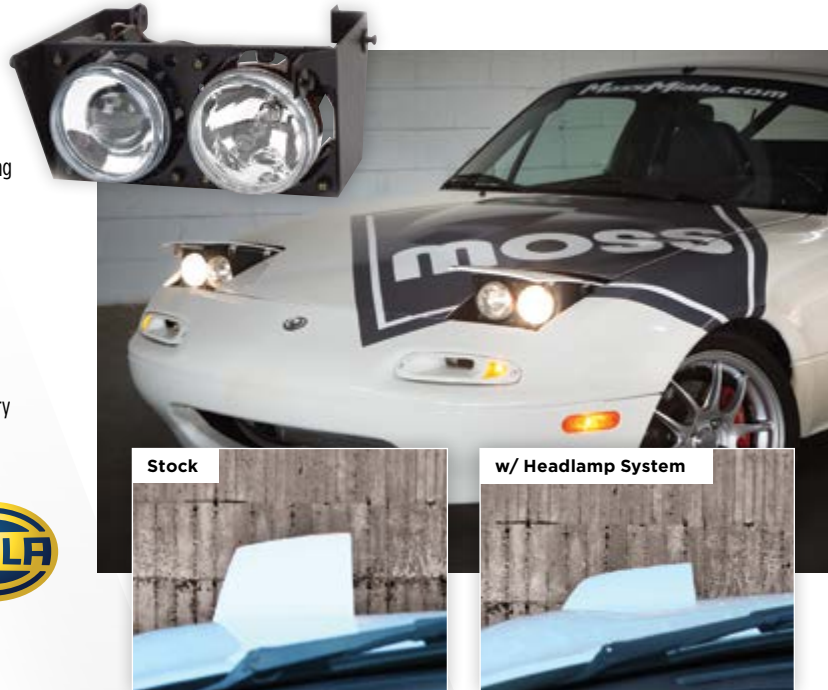

90-24 Brake Pulser w/Delay	056-521	60.99
----------------------------	---------	-------

Low Profile Headlamp System by Cobalt[®] ③

If you want the look of low-profile headlights or you're looking to upgrade your lighting output, the Cobalt system is what you need. This complete kit features thorough instructions, plug and play wiring, superior Hella brand lamps, and powder coated buckets. Please note this is a fairly permanent upgrade for your Miata. LHD only.

- Hella DOT Approved Lamps - Street legality is key and these lamps are good to go
- Hi and Lo Beams - 90 mm 65 watts
- Superior Bucket Design - One piece design with easy installation in mind, powder coated to last
- OEM Quality Wiring Looms - Automotive grade wiring harness easily plug into factory wiring harnesses for plug and play installation
- Thorough Installation Instructions - A step by step tutorial with plenty of high resolution pictures make the installation of this system easy

90-97 Low Profile Headlamp System	906-055	779.99	
90-97 Replacement Bulb	906-054	9.69	

Smoked Side Marker Lamps Set by I.L. Motorsport ①

Designed for your NAs and NBs, the stylish and practical smoked side-marker lamps by I.L. Motorsport fit both the front and rear corners perfectly. Easy to put together, this replacement-kit includes the side-markers, gaskets, bulbs, and wiring.

Note: The bulbs are clear so you are free to re-use the front amber bulbs.

Just like the original Miata model, all four reflectors have an opening for the bulb.

90-05 Smoked Side Marker Lamps Set	162-889	99.99
------------------------------------	---------	-------

Euro Spec Tail Lamps by I.L. Motorsport ①

European inspired taillights are a clean look with clear turn signals and parking lights.

90-97 Euro Spec, Clear - Pair	902-991	259.99
-------------------------------	---------	--------

Smoked or Clear Turn Signals by I.L. Motorsport ①

Awesome styling in a complete replacement unit featuring high-quality manufacturing. These are plug-n-play with two-phase street legal amber bulbs.

90-15 Hardtop Cart	900-036	159.99	OS
90-15 Hardtop Cover	900-039	29.99	

Hardtop Hoist ②

This hoist allows you to store your top out of the way above your car. To install, simply lower and attach.

90-05 Top Hoist	900-990	114.99	
-----------------	---------	--------	--

Hardtop Side Striker Kit ①

These side strikers are commonly broken when over tightening the hardtop. Don't settle for a rattling hardtop any longer; replace your broken or missing brackets today. Hardtop attaches to these strikers that are on a panel behind the seats on the "B" pillar. These are not the ones on the windshield frame.

90-05 Side Striker Kit	904-820	104.99	
------------------------	---------	--------	--

Stainless Steel Security "Frankenstein" Bolts ①

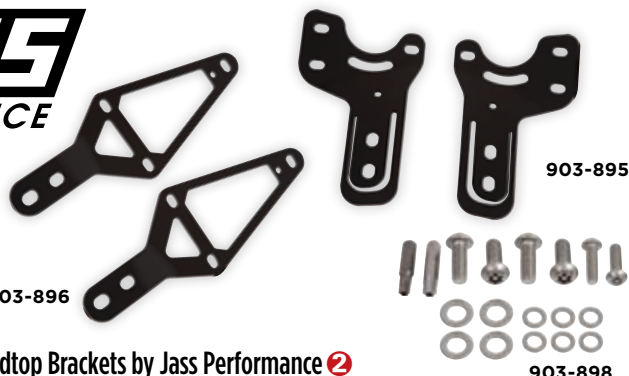

Much like the hardware sticking out of Frankenstein's monster's neck, these bolts stick out of the rear panel between your trunk lid and your convertible top. Your Miata's hardtop will not latch properly if these bolts are broken or missing. Designed and manufactured in the UK from a single piece of aircraft grade stainless steel. Instead of the Philips head screw these bolts use a 16 mm wrench to install adding a bit of extra security. Buy polished or raw sold as a set of two.

JASS
PERFORMANCE

Seat Lowering Brackets by Jass Performance ③

Create more room in your NC Miata with this simple solution! Though seemingly larger compared to the other Miata models, the NC offers similar or even less interior space. But, if you get our seat lowering brackets, a potential 2.5" drop of the seat rail will allow more space!

The Jass Performance seat brackets offer 1", 1.5" and 2.5" effective drop. (Check our website for more details). These lowering brackets have been computer stress-calculated for real life crash situations. Installation is easy and reversible. Sold as full kit per seat. Includes installation hardware and manual.

Note: The brackets fit the LHD/RHD MX5 NC.

Hardtop Brackets by Jass Performance ②

Stop worrying about your hardtop's security. Jass Hardtop Brackets are CNC cut, CNC bend and are direct fit with strong metal to metal connection between the hardtop and the car chassis. These brackets are substantial and for 90-05 Miatas feature an optional security fastener option. Front pair for windshield header, rear pair for B pillar. Fasteners attach one set of brackets, two needed for full hardtop. Security fasteners come with bits..

Now for your NC, these Jass brackets offer tight fix of the hard top to the car body reduce body twist, and give you a coupe-like feel!

Retro Luggage Rack ②

Add a truly classic look to your Miata with this Retro style luggage rack. This rack has been very popular in our MGB parts program and we decided it looked terrific on the first three generations of Miata too. It's a lower profile to our other racks as well. Must be permanently attached to your trunk lid. Not compatible with trunk lid spoilers/lips.

901-360

Raydyot Retro Racing Mirrors by Tourist Trophy ①

Raydyot mirrors were popular in the 1950s and 60s for their aluminum construction that is lightweight and vibration-free - and they look great. Moss has been reproducing the Raydyot mirrors for our classic British sports cars for many years. We recently added a convex mirror for better visibility in a modern car and risers to fit the NA 1993-97 Miatas.

Note: Will fit earlier cars if center mirror hole on door is widened. Sold as a pair.

903-847

Uprated Dust Boot by Jass Performance ②

Regularly changing the shift boot is annoying and expensive. The factory ones tend to last a year on most daily driven cars, and start deteriorating soon after. Which is why the long lasting uprated dust boot by Jass Performance is a great add on to your car.

These Uprated Dust Boots are direct replacement of the OEMs for 5 and 6 speed gearboxes for your NA and NB. Tried and tested on road and track, the dust boots look great and fit perfectly. Their thick underside insulation is heat resistant to ensure 100% sealing as well as noise and heat insulation. Get your uprated dust boot in either fiberglass or metal construction. Both will fit underneath the factory center console but the fiberglass version is finished to a very high standard and could be installed on its own.

Mesh Wind Blocker by Cobalt® ①

Driving your Miata doesn't need to be a hair raising event. The Cobalt wind blocker helps eliminate the wind buffeting that takes the fun out of going topless. Now you can have conversations instead of shouting matches. There is no need to remove the wind blocker to put the convertible top up or down, it is hinged to effortlessly fold up and down (fixed glass window tops must remove wind blocker to raise top). Manufactured with the utmost quality, this aluminum frame with a mesh insert installs in minutes.

Note: Works with top boots and tonneau covers.

90-05 Mesh Wind Blocker	904-151	239.99
-------------------------	---------	--------

Mesh Wind Blocker ①

Keep the wind out of your face and hair with our stylish wind blocker. Offering a flush, smooth fit, as well as a low profile design, you can drive in top-down comfort without detracting from the sporty look of your Miata.

Knurled Shift Knob by ARE ①

Accessorize your Miata with a brand new shift knob by A.R.E. A leading manufacturer of parts for our classic British cars in their awesome machine shop, we decided to get a new range of knurled shift knobs built for your MX-5. Made from solid billet aluminum, the shift knob gives you a sturdy feel when changing gears. Sporting a brushed silver look and classic diamond knurling around the center, this 2" spherical knob comes highly recommended for every Miata enthusiast. It is threaded inside, so all you need to do to install it, is just screw it on! Available at a pocket friendly price, try out this brand new shift knob!

90-24 Knurled Shift Knob by ARE 902-311 **44.99**

Door Panels ②

Offer your NA or NB Miata the gift of high-quality, leather covered door-panels. Featuring quality top-grain leather, these panels are wrapped in our own upholstery shop and will certainly amp up the look of your Miata's interior. Available in black, grey, red, bright red, blue, tan, biscuit, honey tan and green. Take your pick from our many options and zoom-zoom in style!

If you choose a non-leather route, you can enjoy our selection of the plain door panels as well.

The Door Panels themselves are made of extremely durable and weather-proof ABS plastic and have correct factory thickness. Compared to the flimsy cardboard panels supplied by the factory, they do not get warped or misshapen due to wet weather.

CIPHER

Leather Steering Wheels by Cipher ④

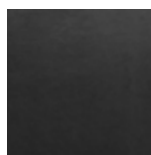

What is the easiest way to dramatically improve your Miata? Swap out the steering wheel. The steering wheel is the main touch point in your Miata so changing it out can have a huge impact on your driving experience. The problem with swapping out your steering wheel is that up until now that cool Nardi or Momo wheel meant you lost your air bag. Enter Cipher Auto and their line of steering wheels that allow you to swap out your worn stock wheel for a real leather, flat-bottomed wheel that allows you to keep your air bag. The Cipher wheels diameter is the same as stock except for the flat bottom and the rim is thicker than the factory wheel for a better grip.

Note: Instructions are included but we highly recommend professional installation.

905-279

Dash Panel Cubbies by I.L. Motorsport ①

I.L. MOTORSPORT

If you have an aftermarket single-DIN radio in your dash you probably have an unsightly hole. These cubbies are a smart way to fill the hole, add storage space, and even add a gauge or an analog clock. We think the clock recalls the heritage of two-seat British roadsters that the NA Miata was designed from. The plastic is a perfect match to the OEM interior. See MossMiata.com for more fitment info.

Gauge Face Sets by Revlimiter ③

The Revlimiter Gauge Face Sets are crafted from Aerospace polymer and laser-cut. Digitally screen printed, featuring an OEM textured surface, and a 6 o'clock tach/speedometer zero position. There is no lighting tint baked into these gauge faces, so they illuminate with the bulb that is already installed in your cluster.

Note: The dummy lights below the tach (airbag, lights-up, hold) are eliminated.

In the kit:

- One set of genuine Revlimiter gauge faces
- A dry dust cloth
- Pair of no-glue, push-through needle stoppers
- Pair of gloves
- Pry tools to remove OEM gauge needles
- One-sheet installation guidelines

Retro Shift Plates by Revlimiter ①

Give your Miata a cool accent with the new Retro Shift Plates. Measuring 20mm (.78") by 30mm (1.18") wide, each plate is precision water-jet cut at 1mm thickness. The aluminum plates are sized such that you can fit them anywhere. You can sport your shift plate on the right side of an NB center console, or on the plastic hub cover if you do not have the factory steering wheel. The plate is pliable enough to even mount a curved surface with the included 3M mounting tape. Just like the factory, the shift pattern is a die-cut sticker printed on special brushed aluminum vinyl.

Gauge Rings by Jass Performance ③

Refresh your NA Miata with high quality gauge rings. These billet aluminum rings are CNC machined and diamond finished with a unique design for dedicated angle light reflection and discrete shine. The deep style rings, 908-335, do not include glass but the independent, 908-336, do include glass in each gauge ring. Full set of 5 gauge-rings. Easily install with a few drops of flexible glue or silicone.

I.L. MOTORSPORT

Redesigned Center Console by I.L. Motorsport ①

The center console that Mazda should have designed for the NA Miata. Use of space is perfect in this new design; length is added to the lockable console so you can actually put things in there, a pocket is added so maps are within reach, and you can choose one with cup holders off to the side, or without any cup holders. Redistribution of features wasn't the only focus in the design of this piece; it's manufactured to look like the rest of your factory interior so it absolutely looks at home in your car. This console was designed by people who know and use Miatas every day. It's easy to install, the only tool you'll need is a screwdriver!

Note: Manual transmission only. Re-uses factory electric window switches.

Center Console Insert by I.L. Motorsport ①

Realizing that Mazda did a lackluster design on the center console of the NC, ILM has once again blown us away with a redesign that's utter perfection. By removing the useless cup holders, this well thought out solution is an insert that creates roomy storage space and even adds a 12V power outlet for your phone or other devices! The lid swings up between the seats on a rear hinge, and a pad is available for elbow resting comfort.

Note: Includes a wiring harness, replacement lid, and instructions.

SUPER PLUSH FEELS LUXURIOUS!

Carpet Sets by Moss Motors ③

Our Miata carpet kits are precision machine cut from material that is made in the USA, by specialists in our Moss Upholstery shop in the USA! Our Upholstery shop has been making superb kits for our British restoration business for decades and these kits get the same know-how and finesse. The cut pile isn't an OEM style but we feel it is far superior. The loop carpet is the closest we've found to OEM, and is finally available. The kit includes padding, as well as front and rear floors, tunnel and rear deck carpet pieces, and full instructions! There are also rubber wear mats in the driver's side footwell.

PRE-MOLDED FOR EASY INSTALLATION

909-986

Molded Carpet Kits ③

When considering new carpet for your Miata, think about cost, ease of installation, and overall product quality. This molded carpet kit from the UK makes installation easier than a non-molded kit, is high quality, and costs more than other kits because it is molded. The kit comes in three molded pieces: one for each tunnel and a third for the rear parcel shelf. All pieces are cut in the necessary shapes and include the necessary holes to fit perfectly to your floor pan. This kit can be installed without needing to remove your dash. The fit is perfect and you can do the installation, saving you in labor fees!

Note: Instructions are included.

Underfelt Kit

The underfelt kit is highly recommended. It makes the carpet feel even plusher, and helps with sound deadening. Most 1990-97 NA Miatas are of an age where the original might tear upon removal, or have suffered water damage. Like the carpet, this kit is cut exactly for your Miata and is easy to install.

Trunk Kit

Don't leave your trunk carpet dirty and old, we have a kit with or without a spare tire cover, and these kits are molded as well. Same quality build as the carpet kits, exactly trimmed to fit. Take care of your Miata's entire carpet needs at one time!

¹ Not PRHT

For twenty five years now DEI has produced exceptional quality heat control products. Over the years they have designed custom solutions for many automotive needs, including Mazda Miata applications. Design Engineering's heat and sound solutions prove their capabilities and ability to come up with correct and innovative products to solve the problems presented. Trust the materials, fit, form, and function from DEI.

Leather Look Sound Barrier by DEI

Leather Look Sound Barrier is a great way to significantly reduce troublesome incoming sounds while providing thermal insulation to lessen transfer of heat and cold in any climate. It is designed to insulate any area of your vehicle's interior where a leather appearance would provide a finishing touch. You can use it on a headliner, on rear decks, door skins, trunk floors, floor boards, speaker boxes, or on engine covers etc.

This sound barrier can be permanently installed with Hi-Temp Spray Adhesive or used as temporary protection in trunk and floor areas. With a moisture resistant, black leather embossed surface, it also features a 1 lb/sq ft loaded barrier. Available in two sizes: 8 sq ft and 16 sq ft. Take your pick!

Features:

- Stylish finished appearance
- Enhances stereo performance and sound
- Maximum noise control
- Quiet and comfortable interior
- No mold or mildew issues

24" x 48" - 8 sq ft	231-980	121.99
48" x 48" - 16 sq ft	231-981	241.99

Boom Mat Moldable Noise Barrier by DEI ①

Boom Mat Moldable Barrier is easy on the budget noise-control solution. This highly flexible, 0.5lb/ft sq mat by DEI has a thin profile and acts as a sound and moisture barrier. It conforms to the shape of your chassis, and for more intricate areas can be molded with a heat gun as the material bonds where seaming is necessary. It even becomes quite flexible when warming the BM-MD outside on a sunny day. All of these qualities make it perfect for a sound and moisture barrier behind door panels. Available in two sizes.

Features:

- Only 1/8" thick
- Easy installation
- Cost effective sound and moisture barrier
- Custom molded fit with heat application
- Easy removal for repairs or service
- Waterproof properties
- Perfect for replacing craft paper or plastic door moisture barriers

WATCH & LEARN! Installation of Moss Custom Seat Covers

Follow along as we take you on a journey of interior style and comfort. Our new seat covers are easy to install, and we'll show you how!

Moss Handcrafted Upholstery Headrest Pockets 1

Miatas are not well known for their ample storage space, but the fun had in them can greatly offset that. We always look for ways to bring helpful and interesting products for the Miata crowd, and this is one of them! These covers protect your headrests while giving you an extra bit of storage. The pocket in the back allows you to tuck away loose items, creating more storage space where previously there was none! Created by the team behind Moss Handcrafted Upholstery, these are made using the same materials and workmanship. Sold individually.

VELOUR

Velour Seat Covers ②

Made from a heavy black colored cloth velour fabric, these covers have a soft and inviting feel. Also included are pockets in the back for storing maps, CDs, etc. Aside from the extra comfort and good looks, these seat covers provide another huge benefit: protection for original upholstery. These covers simply slide over your existing seats. 90-97: Headrest covers not perforated for seatback speakers. Sold in pairs.

EUROSPORT

LEATHERETTE

Premium Leatherette Seat Covers ②

These seat covers are amazing - we actually think they are better than leather: Better wear resistance, better abrasion resistance, the color won't fade thanks to UV protection in the material, easier to maintain (just wipe clean with a damp cloth) - all at a fraction of the cost of real leather. These covers are specially tailored to the Miatas seats so the fitment is perfect, and you can easily install them yourself, further saving you money! 90-97: Headrest covers not perforated for seatback speakers. Sold in pairs.

Knurled Billet Oil Cap Cover ①

Our oil filler cap cover is precision machined from 6061-T6 billet aluminum then polished to perfection.

Featuring a knurled edge for positive grip. Fits securely over the OEM oil cap.

90-05 Oil Cap Cover	908-432	24.99
---------------------	---------	-------

Mishimoto Hoonigan Engine Oil Filler Cap ①

This limited edition billet aluminum oil filler cap adds an element of style to your engine bay. With its clean and sleek design, a collaboration between Mishimoto and Hoonigan, it's an easy way to upgrade the aesthetics of your engine bay. The cap comes in anodized gunmetal grey or vibrant red, along with a matching multi-tool so keys get some extra flare too.

For those of you who may not be familiar, Hoonigan is an automotive culture powerhouse; from their team of professional drivers to their featured vehicles, they cover all the bases when it comes to having fun in cars and looking good while doing it.

90-05 Silver	909-247	76.99

Silicone Wiper Blades by PIAA ①

Silicone wiper blades offer the best resistance to the elements while their revolutionary design eliminates squeaks and drag and maintains a sharp edge after thousands of uses. Curved design is engineered to hug newer, curvy windshield designs.

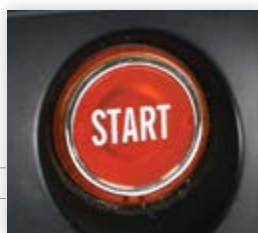

Note: Sold individually.

90-15 Wiper Blade - Classic	101-210	28.99
90-15 Refill - Classic	101-212	10.79

Engine Start Button ②

Illuminated red start button looks racy yet requires your key in the ignition for security. Instructions included.

90-15 Illuminated Start Switch	101-180	26.99
--------------------------------	---------	-------

Battery Shield by Cravenspeed ②

This is a product you just cannot go wrong with! Clean and simple, employing only premium materials, the Cravenspeed battery cover offers both aesthetic and functional value. The Battery Shield is both a stylish trim panel which provides a clean look to your engine bay and a solid protective cover for your battery. Precision machined from a high-quality plastic called Hydex 1050, the cover has racing inspired quick release latches which offer it race car appeal and capability. It also makes for a decent spot to put some decals as well!

To install, just align each quick release button over its mounting point and press the cover down until it snaps into place. The custom-made stainless-steel standoffs can be put in place of the OEM battery tie-down nuts. For added stability, the battery shield also has padding on the underside. Budget friendly, offer your ND Miata the gift of an awesome battery cover!

16-24 Battery Shield	910-274	89.99
----------------------	---------	-------

Brass Oil Filler Cap by I.L. Motorsport ①

Replace that boring oil filler cap with this durable and premium quality cap. This Genuine I.L. Motorsport replacement part comes in a silver finish, and has an engraved "Roadster" logo on it. It is the complete package and not just a cover. The upper part of this cap is made from brass and shows off a high quality silver finish. Give your Miata the benefit of a brand new oil filler cap.

06-24 Oil Filler Cap	910-386	109.99
----------------------	---------	--------

Power Antenna ②

Our power antenna conversion kit allows you to ditch the RC car looking fixed antenna. Raise the antenna to hear your favorite radio show and lower it for a sleek look or for use with a car cover. Can be wired directly to accessory power source or used with a toggle switch (not included).

92-05 Power Antenna	900-712	89.99
---------------------	---------	-------

SplineDrive Tuner Lug Nut Kit with Locks by McGard ①

SplineDrive McGard lug nuts combine style and performance. SplineDrive lug nuts offer maximum gripping power and more stud engagement with a greater seating surface than socket-style lug nuts. Their closed-end design covers the stud completely, protecting it from water and rust. The one-piece wheel lock functions like a regular lug nut and comes with a unique key tool for easy installation and security. Like all McGard lug nuts, the chrome plating is guaranteed for life not to rust, chip, or peel.

For use on aluminum cone-seat wheels only.

90-24 Lug Install Kit	906-362	134.99
-----------------------	---------	--------

998-314

Hood Lift Kit by Cobalt® ②

Cobalt's engineers are enthusiasts and gear heads, and knew their hood lift kit would be designed to be superior to other brands.

Features:

Easy Engine Access - Because the struts mount near the cowl the engine is more accessible from the sides.

Progressive Struts - Other kits have struts that are too strong, raising the hood too fast, or too weak, requiring your help to get the job done. Cobalt's lift kit opens the hood halfway and then slows to a full open.

90-97 Black - All	998-314	59.99
99-05 Black - w/o cruise control	998-314	59.99
99-05 Black - w/cruise control	998-315	64.99

16-24 Black - All	910-720	89.99

910-720

Trunk Lid Lift Kit by Cobalt® ②

When your hands are full, it's tough to open the trunk after turning the key. With this helpful kit, you turn the key your trunk will open itself.

Note: Comes complete with all hardware.

90-05 Black	900-230	36.99
90-05 Satin	900-233	36.99

900-233

Perma Cap ①

Put this gas cap on and never take it off! This cap has a special spring-loaded door, which allows you to fuel up without removing the cap.

90-97 Perma Cap	900-895	16.99
-----------------	---------	-------

Trunk Popper Kit by MX5 Things® ②

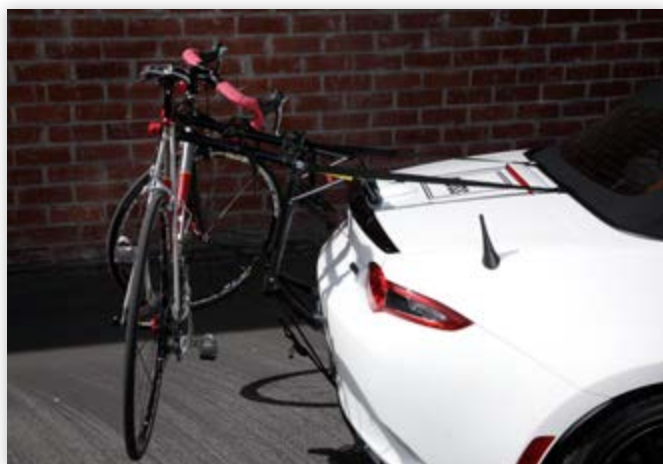

Opening your Miata's trunk can be a hassle if you have an arm full of groceries, shopping bags or if your hands are simply dirty from doing all that work under the hood. You can obviously use the button on your key fob to pop open the trunk, but you'll still need to lift it open from there. Which is why you need a trunk popper!

Why risk any unnecessary fingerprints on your Miata when you can open your trunk completely wide without ever touching your car. Bask in this little luxury! This is just the kind of product that you would want coming stock on your roadster. Installing these trunk poppers is a breeze. Once they're in, you'll soon forget what life was ever like without them.

Note: This kit will not work with extra weight on the lid, like a heavy liner, luggage rack, etc.

16-24 Trunk Popper Kit	905-281	99.99
------------------------	---------	-------

Universal Removable Bicycle Rack ①

This universal bike rack installs in minutes and holds up to three bikes securely.

90-24 Bike Rack	900-310	109.99
-----------------	---------	--------

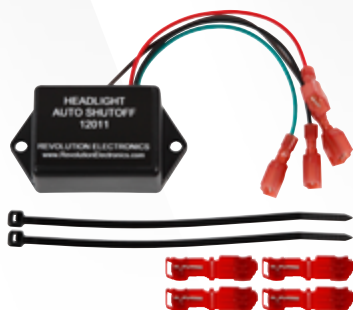

Power Window Conversion Kit ④

Systems include all motors, mechanisms, harnesses, fitting parts, trim covers and illuminated switches. Switches mount in factory position on the center console.

Note: For Miatas originally equipped with manual windows.

90-97 Power Window Conversion Kit	902-145	399.99
-----------------------------------	---------	--------

Power-Off Delay Modules by Revolution Electronics ②

We have seen this feature on newer cars; now you can have it on your NA Miata. The headlight module will automatically shut off your headlights after 10 seconds and the radio module will allow you to continue listening for up to 15 minutes after the engine is off!

Note: Installation is simple and straightforward. Instructions are included.

90-97 Headlight Module	910-345	67.99
90-97 Radio Module	910-346	63.99

MISHIMOTO

Magnetic Drain Plug by Mishimoto ①

Made with neodymium magnets, Mishimoto Magnetic Oil Drain Plugs collect pieces of metal debris that your oil filter might miss – preventing them from getting into your oil system. These drain plugs add an extra layer of protection to your engine; they are CNC'd from 6061 aluminum and come with a Dowty seal to prevent leaks.

90-24 Drain Plug	902-193	23.99
------------------	---------	-------

Cargo Net ②

Cargo net attaches to trunk lid hinges and opens at the top for easy stuffing of smaller items.

90-05 Cargo Net	900-754	12.99
06-15 Cargo Net	900-752	50.99

On-Board Charger

This is the ultimate way to ensure longer charge life for your battery. This unit is attached to your Miata and is resistant to oil, gasoline, solvent and acid. Operates from any 110V wall outlet.

Charger	386-245	94.99
---------	---------	-------

Cruise Control ③

Why settle for just driving when you can cruise? Rostra, manufacturer of most cruise controls for the Big 3, has developed an electronic cruise control which doesn't require a vacuum source. Being electric makes for an easier install and more accurate speed control.

Note: Speed signal generator required for 90-95 cars.

90-05 Cruise Control ¹	902-986	429.99

Developed in keeping with 100 years of expertise, this horn delivers focused and penetrating tone that cuts through traffic with ease. The sharp tone horn has a sharper and deeper tone compared to the Super Tone Horn. Corrosion and water-spray resistant, the Hella Sharp Tone disc horn has a robust premium look with distinctive yellow grille. Attractively priced, get your Sharp Tone horn set today!

Note: Sold as a set of two.

Sharptone Horn Kit	545-091	36.99
--------------------	---------	-------

Twin Trumpet Horn Kit by Hella ②

The Twin Trumpet Horn Kit by Hella produces a full harmonious and wide sound radiation. They are noticeably louder than stock horns and have been manufactured to the highest standard.

Note: This kit includes both a high and low note horn, relay, mounting brackets and instructions.

Twin Trumpet Horn Kit	545-095	35.99
-----------------------	---------	-------

JASS
PERFORMANCE

Engine Bay Light by Jass Performance

This Jass Performance Engine Bay Light will come in very handy for a number of reasons. Just pop the hood and transform the look of your engine by illuminating and highlighting features that you otherwise wouldn't be able to see without the light. It installs under the MX5 NA hood with a bracket, aiming the light at the desired angle. This lighting kit is great for displaying your vehicle at car shows and is also extremely beneficial for increased visibility if you need to look at your engine at night for any reason. All connecting points are existing, as well as the power source.

90-05 Engine Bay Light Kit	904-061	59.99
----------------------------	---------	--------------

JASS
PERFORMANCE

Drainage Brush by Jass Performance ①

The drainage system of the MX5s is quite well thought-out and very rarely gets clogged. However, regular clearing of the drainage tubes is recommended, as it avoids the unpleasant surprise of water in the car.

This drain brush by Jass Performance is great for the job, easy to use and compact enough that you can always carry it in the car in case of need. In contrast with the metal wire brushes available in the market, this drain brush has a sturdier shaft and comes with plastic coating to prevent any possible damage or metal car paint. Regular maintenance goes a long way in the upkeep of your roadster. So, get this drain brush and keep your Miata's drain pipes working perfectly for a long time to come

Drainage Brush	908-227	16.99
----------------	---------	--------------

Synthetic Oil by Red Line

Red Line's synthetic class V motor oils are designed to provide the highest protection, cleanliness and longer drain intervals with the lowest friction. They use the most stable components available and formulate their products for wear protection and friction reduction. These synthetics have a natural multigrade property that allows their chemists to avoid bulking up their oils with unnecessary additive packages.

Radiator Fin Comb by Mishimoto ①

The Fin Straightener quickly and easily straightens out bent fins so they can work more effectively – restoring radiators, oil coolers, transmission coolers, and intercoolers to their original shape. The durable plastic material won't damage or mar, and the compact design makes for easy storage – fitting in your glovebox or center console. This tool fits the common fin spacings of 8, 9, 10, 12, 14, and 15 fins-per-inch.

90-24 Radiator Comb 902-194 8.99

Mishimoto 15 piece No-Spill Coolant Funnel Kit ①

The No-Spill Coolant Funnel Kit makes swapping out your coolant quick and simple. It directs fluids precisely and safely into reservoirs or radiators and comes with 3 funnel extensions to make working in hard to reach places easier. The cap and radiator adapters provide a large range of versatility and it all fits together for compact storage.

Features:

- 4 cap adapters and 5 radiator fill neck adapters, fit most radiators and reservoirs
- 3 funnel extensions
- Items fit in funnel for compact storage
- Mishimoto Lifetime Warranty

No-Mar Tool Set

Using the right tool for the job is a must if you don't want broken parts or scratched paint. This set of 5 pieces is perfect when you're removing fasteners, trim, or molding, and don't want to damage your paint or those expensive fasteners. No-Mar means the tools won't hurt your car or the parts you're removing. The small price is great insurance, and every tool box is incomplete without this set.

No-Mar Tool Set 231-830 23.99

JIS "Japanese Industry Standard" Screwdrivers by Vessel

Miatas (and other Japanese-made cars) have screws that look like Phillips but are JIS, "Japanese Industry Standard" size. Using a Phillips screwdriver in a JIS screw will usually "cam out" – the screwdriver's head will pop out of the screw as you twist the driver. These JIS screwdrivers will fit the fasteners in your Miata perfectly. Tips are magnetized. Hardened plastic handles, made from recycled materials, have rubber strips for easy gripping.

Full Screwdrivers - Set of 3	903-755	49.99
Stub Screwdrivers - Set of 3	903-761	44.99
Large Insert Bits - Set of 3	903-763	9.99

Gemini Phone Mounts by Cravenspeed ②

When it comes to giving your phone a safe and secure home in your Miata, CravenSpeed has you covered. We offer our Gemini device mounts in two different flavors. The first is the master of convenience. It simply pops into the cup holder socket found in the passenger footwell. It's got a 6" flexible arm that allows you to position your device exactly where you want it. The second style is a more rigid solution. We've made a spacer ring that installs between your A/C vent and the dash. This gives you a sturdy mount in a prime location next to the steering wheel while maintaining full functionality of the vent.

16-24 Flexible Phone Mount	903-815	99.99
16-24 Vent Phone Mount	910-306	99.99

"Zoom" License Plate Frame ①

The Miata is a great looking sports car but the rear license plate void begs for a highlight. The Zoom frame adds dimension, adds flair, and hides unsightly plate screws. Durable ABS.

AT HOME IN YOUR LIBRARY & WORKSHOP

Enthusiasts Restoration Manual: Mazda MX-5/Miata MK1 & MK2

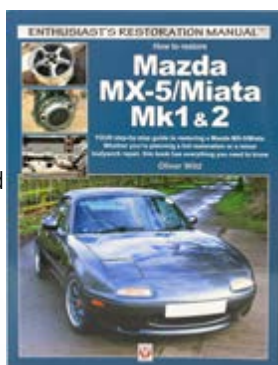

The Enthusiasts Restoration Manual is an easy-to-follow guide for restoring a classic Miata. It walks you step-by-step through choosing a project car, inspecting it for flaws, planning the restoration, and buying parts and tools to perform the work.

Whether you are looking to restore to original condition or build an out-and-out track weapon, the techniques described in this book will assist you in getting the right base to start with. It also provides a guide to handy upgrades as you go along. Paperback. 114 pages.

This book is based on an actual restoration of a vehicle carried out by the author, with before and after imagery. Its comprehensive text is supported by high-resolution photographs—guiding you through a wide range of critical tasks:

- Stripping the car down
- Cutting out and repairing rust
- Restoration of interiors
- Replacing the hood
- Refurbishing the underside of the car, including;
- floor pan
- suspension
- brakes
- undersealing
- reassembly
- replacing the cam belt and waterpump
- replacing engine seals
- replacing gaskets

90-05 Restoration Manual 904-703 50.00

The Book of the Mazda MX-5 Miata: The 'Mk3' NC-Series 2005 to 2015

Published in 2022, the Book of the Mazda MX-5 Miata: the MK3 dives into the story of the third generation of Miata – the NC. The author, Brian Long, researched and wrote this book in Japan with the full co-operation of the factory, creating a deep and in-depth look at the design, popularity, and legacy of the NC Miata along with how it differs from other Miata models.

Mazda Mx-5 Maintenance and Upgrades Manual

Published in 2017, this Mazda MX-5 Maintenance and Upgrades Manual helps owners develop the workshop skills needed for the maintenance and repair of their cars and gives guidance on upgrades they can make to improve performance. With step-by-step instructions and safety information throughout, this book is a valuable technical resource for owners of Mk1 and Mk2 Miatas. Hardcover. 160 pages.

Illustrated with over 700 color photographs, the book covers:

- Tools and safety
- Weekly routine checks and twice-yearly checks
- Preparing for Diagnostic Test
- Engine maintenance and tuning
- Gearbox and differential
- Brake maintenance and upgrades
- Upgrading the suspension bushes and changing the springs and dampers
- Bodywork and hood maintenance

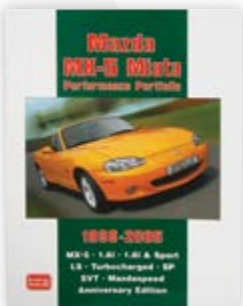

90-05 Maintenance and Upgrades Manual 904-719 34.95

Mazda Miata MX-5: Find It. Fix It. Trick It.

When you don't yet have a Miata, this is your virtual road map to ownership. Covers what to look for in a used model, routine maintenance and 15 performance and appearance upgrade projects. Well-written instructions and clear illustrations. 160 pages, by Keith Tanner.

Find It. Fix It. Trick It. 904-707 22.99

Miata Performance Portfolio

In-depth coverage of the second gen Miata/MX-5. Covered models include 1.6i, 1.8i, Sport, Turbocharged, 10th Anniversary, LS, SP and SVT. Road comparison tests, model introductions, performance data and specs. 128 pages, softbound.

Performance Portfolio 904-715 22.99

Mazda Miata MX-5: Performance Projects

How-to for 35 common Miata projects. Each outlines time, tools and talent needed, and cost. Paperback. 112 pages, by Keith Tanner.

Performance Projects 211-551 22.99

The Essential Buyer's Guide: Mazda MX-5 Miata

At its launch, the Miata MK3 was a dramatic change from the previous models that had earned the small sports car its reputation. Now it is being recognized as the outstanding vehicle it has always been — rapidly becoming the “enthusiast's choice” and bought by all ages for all purposes.

This book will guide you through the selection, purchase, and ownership of one of these charismatic sports cars. The author, Oliver Wild, has owned well over 50 Miatas personally and runs a business restoring these roadsters. Focusing on the key points to inspect on the Mk3, this guide will help you avoid common pitfalls and to choose a good example.

The right car is out there; use this book to find it.

Paperback. 96 pages.

Transmission Tunnel Heat Insulation by DEI ①

Heat transfer from the console to the interior is a known issue for Miatas. This heat shield kit is designed to reduce that heat, keeping it in the transmission tunnel and allowing the interior to stay cool. Durable and lightweight, the DEI tunnel installation kit is made of a combination of heat-reflective aluminum and a finely-woven glass-fiber composite. To make installation easy, a simple peel and stick adhesive holds it in place. Precisely cut for your 2006-2015 NC, a perfect fit is assured.

06-15 Heat Insulation Kit	907-189	139.99
----------------------------------	---------	---------------

Vibration Damping Kit by DEI ②

Greatly reduce rattles, squeaks, and vibrations with this premium vibration damping and noise reducing interior kit by DEI. By adding Boom Mat damping material to the metal floors, rear bulkhead, and rear deck, you create a more comfortable interior with improved acoustics. Easy to peel off backing makes installation simple as the pliable pre-cut pieces conform to the metal body offering perfect fit. Available in black finish for your NA or NB Miata. Reasonably priced, order your damping kit today!

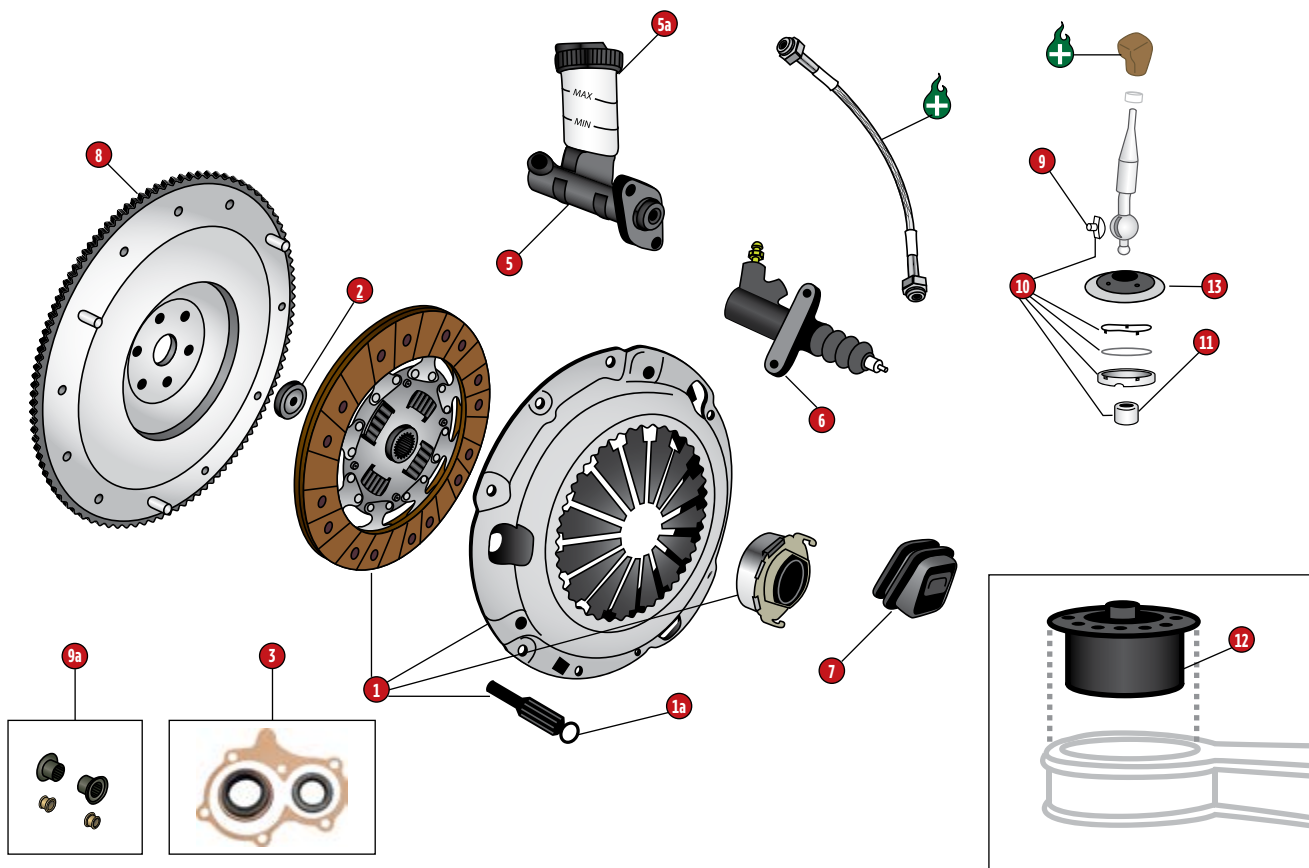

90-05 Interior Floor Damping Kit	907-188	67.99
---	---------	--------------

Interior Insulation Kit by DEI ②

Enjoy a quiet ride with this lightweight floor insulation kit by DEI. By replacing existing padding and insulation with an engineered UC Lite™ (superior thermal insulating and sound absorbing material), you can greatly reduce the heat radiating through firewalls, floor, and transmission tunnels. This insulation kit also absorbs annoying sounds of the road, as well as tire and exhaust noise. This creates a cooler, more comfortable interior with improved acoustics. All pieces are CNC pre-cut for an easy fit and quick installation. Available for NA or NB Miata. Reasonably priced, order your insulation kit today!

TECH TIP

When replacing brake rotors and pads, remember: Clean the rotor surface with brake cleaner to remove the oil used for storage; use brake pad "quiet" (583-825) on the backs of the pads before you install them; and take the cap off the brake reservoir before pushing the pistons back into the calipers.

Frankenstein Bolts ❶

These bolts stick out of the rear panel between your trunk lid and your convertible top. They are the rear anchors for the hardtop, and your hardtop won't latch properly if these bolts are broken or missing. Miatas have two of these.

Sold Individually.

Choose OEM from Mazda or Aftermarket from IL Motorsport.

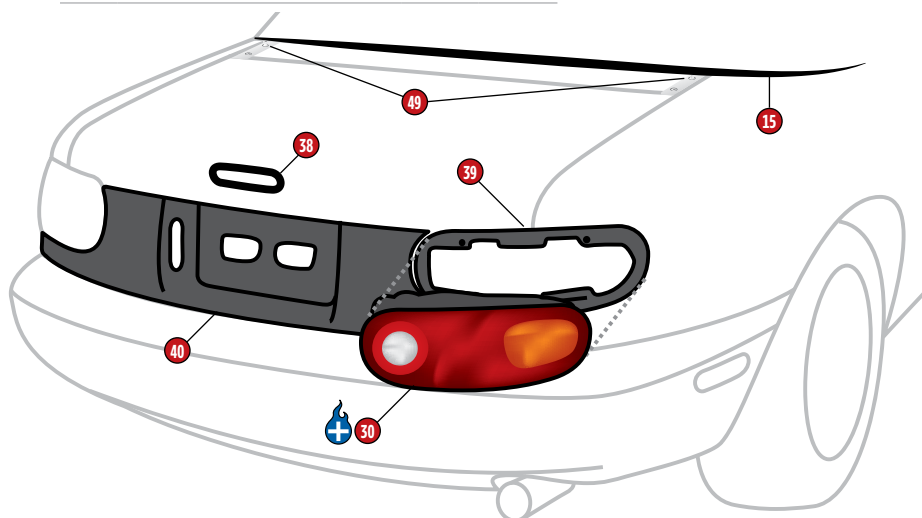

90-05	Mazda Factory OEM Parts	909-500	27.99
06-08	Mazda Factory OEM Parts	909-501	64.99
90-05	I.L. Motorsports	909-995	25.99

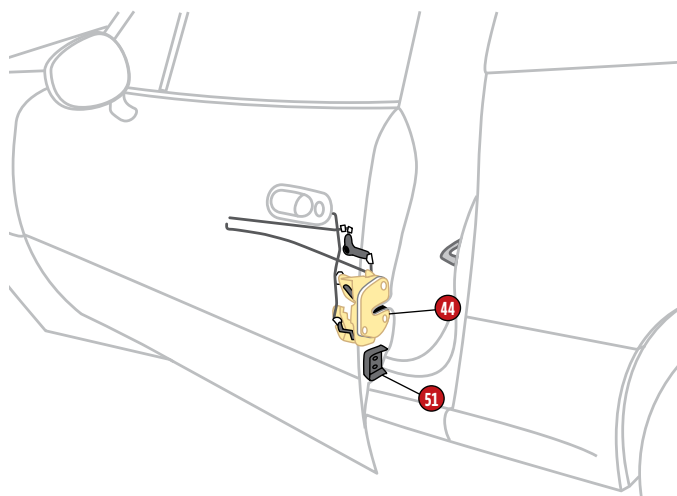

Rear Finish Panel ❸

Made from ultra-durable ABS plastic and made to fit the 90-97 Miata, you need one of these to replace your poor, cracked, and brittle finish panel. In terms of overall build quality, the stock finish panel pales in comparison to this upgrade. It is very sturdy but also has plenty of flex to it. The panel comes bare, ready to paint and put on your car, with all the necessary bolts and clips included for easy installation.

90-97	Rear Finish Panel	906-130	299.99

POWERFLEX

Urethane Door Bushings by Powerflex ❶

Standard rubber door stops soften with age which leads to high-speed door rattling, speaker vibration, and a generally frustrating driving experience. Powerflex premium-grade polyurethane is both mixed and injected in an automated, environmentally controlled production facility - creating a unique material that is much more consistent and durable.

Replacing the standard door stops with these 95A durometer door stops resolves NVH-related issues, improves audio quality for door-mounted speakers by reducing vibration, and provides a long-term, fit-and-forget solution.

COBALT
PRECISION AUTOMOTIVE

Delrin Replacement Door Bushings by Cobalt

This is one of the easiest and cost effective ways to add chassis stiffness to your Miata and reduce door rattles. When your door closes the latch holds it shut but there is also the metal cup on the door that fits around a bushing. This makes your door part of the structure of the chassis. Changing out your old, soft, rubber, factory bushings for a set of our Cobalt delrin replacements stiffens the car and greatly reduces rattles. Your first ride over a set of train tracks will amaze you. Our set includes two delrin bushings, one for each door.

Note: To achieve a perfect fit, take this opportunity to replace the door cups that this bushing fits into, the Dovetail Latch, with our OEM replacements.

90-24 Dovetail Latch - Each	910-804	6.99

COBALT
PRECISION AUTOMOTIVE

Delrin Window Bushings by Cobalt

Window guide bushings get worn out, and the grease in the tracks gets gunked up with dirt over time. If your windows are slow to roll up and down, your bushings are probably worn. Replacing them is an easy, half-hour install. Our kit includes a bushing for each door.

90-05 Window Bushings - Set of 2	909-925	29.99
---	---------	--------------

Replacement Radio Surround by Rspeed

This piece is also referred to as a "tombstone" because of its semblance to the ones found in cemeteries. This is a reproduction of the Mazda OEM piece offered at a lower price than the factory charges while still being made with regard to every detail. Includes mounting clips.

90-93 Radio Surround	909-940	109.99

STANDARD TERMS AND CONDITIONS OF SALE & LIMITED WARRANTY

Last updated: March 17, 2018

PLEASE READ THE FOLLOWING CAREFULLY.

By clicking the button "Agree," or otherwise accessing and using our website, and/or by placing an order with Moss Motors, Ltd. ("Moss," "we" "us" "our"), you acknowledge and represent that you are over 18 and have the legal capacity and authority to enter this Terms and Conditions/Warranty Agreement ("Terms"). These Terms constitute a binding agreement between Moss and you.

1. AGREEMENT TO TERMS AND PRIVACY POLICY

By accessing and continuing to use our Website (<http://mossmiata.com> "Website"), and/or by placing orders with Moss in any other manner, you are agreeing to these Terms including our Privacy Policy ("Privacy Policy", as found immediately following).

2. PRICE

It is Moss' intent that prices in our Catalogues and on our Website are accurate and up to date. However, prices are subject to change without notice. Please inquire about price at the time of purchase.

3. LIMITED WARRANTY.

Moss is proud to provide one of the longest warranty in the business. Everything we sell is warranted to be free from defects in material and workmanship for 1 year from the date of invoice. If the product warranted above fails, within the warranty period, Moss will, at its discretion, repair or replace the product. **This warranty does not cover labor, failure of related components, normal wear of brake or clutch components or failure resulting from alteration, misuse, accidental damage, faulty installation, or faulty repair. TO THE FULL EXTENT PERMISSIBLE BY LAW, WE DISCLAIM ALL WARRANTIES, EXPRESS OR IMPLIED, OTHER THAN THOSE EXPRESSLY STATED HEREIN, INCLUDING, BUT NOT LIMITED TO, IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.** If a product/part fails while under warranty, a warranty request should be submitted to Moss' sales department and must be supported by the original Moss purchase invoice, documentation of the failure and, upon request, return of the defective part.

4. LIMITATIONS OF LIABILITY

It is Moss' intent that the products sold, and services we provide, always function appropriately and no damages result. **However, you understood and agree that any damage that may result is expressly limited (A) TO THE MAXIMUM EXTENT PERMITTED BY LAW MOSS, INCLUDING ITS AFFILIATES, EMPLOYEES, OFFICERS, DIRECTORS, CONSULTANTS AND AGENTS, WILL NOT BE**

LIABLE FOR ANY DIRECT, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGE, OR ANY OTHER DAMAGE, LOSS (INCLUDING LOSS OF PROFIT AND LOSS OF DATA), COSTS, EXPENSES AND PAYMENTS, EITHER IN TORT, CONTRACTUAL, OR IN ANY OTHER FORM OF LIABILITY, ARISING FROM, OR IN CONNECTION WITH (I) THE USE OF, OR THE INABILITY TO USE THE WEBSITE; (II) THE FAILURE OF A PRODUCT OR PART SOLD BY MOSS TO YOU; (III) THE INCORRECT INSTALLATION OF A PART/PRODUCT SOLD BY MOSS TO YOU; (IV) ANY FAILURE, ERROR, OR BREAKDOWN IN THE FUNCTION OF THE WEBSITE; AND/OR (V) ANY FAULT, OR ERROR MADE BY OUR STAFF OR ANYONE ACTING ON MOSS' BEHALF; (VI) THE UNAUTHORIZED ACCESS TO OR ALTERATION OF YOUR TRANSMISSIONS OR DATA; OR (VII) STATEMENTS OR CONDUCT OF ANY THIRD PARTY ON THE SERVICE; AND (B) IN NO EVENT SHALL THE AGGREGATE LIABILITY OF MOSS FOR ANY DAMAGES OR LOSSES IN CONNECTION WITH THE SALE OF PART(S)/PRODUCT(S) EXCEED THE TOTAL AMOUNT OF ANY AMOUNT PAID BY YOU FOR THE PART(S)/ PRODUCT(S).

MOSS MOTORS, LTD. DOES NOT WARRANT THAT ITS WEBSITE OR ANY OF ITS FUNCTIONS, INCLUDING ANY ELECTRONIC COMMUNICATIONS WHICH WE SEND TO YOU, WILL BE UNINTERRUPTED OR ERROR-FREE, THAT DEFECTS WILL BE CORRECTED, OR THAT THIS SITE AND THOSE COMMUNICATIONS, INCLUDING BULLETIN BOARDS, OR THE SERVERS THAT MAKE THESE SERVICES AVAILABLE, ARE FREE OF VIRUSES OR OTHER HARMFUL COMPONENTS. THESE SERVICES ARE MADE AVAILABLE TO YOU ON AN "AS IS" AND "AS AVAILABLE" BASIS AND YOU EXPRESSLY AGREE THAT YOUR USE OF THESE SERVICES IS AT YOUR SOLE RISK.

5. INSTALLATION NOT INCLUDED

Moss is not liable for injury or damage due to incorrect installation or use of their products/parts. All products/parts and are sold with the understanding that the safe and proper installation and use of the products is the customer's responsibility. It is the customer's responsibility to check with their local laws to

determine if the product they have purchased from Moss and then installed on their vehicle may or may not be legal. Follow factory workshop manual procedures and instructions, but use current shop safety standards and common sense. Some tasks will require professional advice which Moss does not provide.

6. MODIFICATION OF THESE TERMS

Moss reserves the right, at its discretion, to change these Terms at any time and/or to discontinue any part of the Website. A change to the Terms will be effective (a) ten days following Moss sending a notice to you; or (b) after Moss posts a revised agreement on the Website or in the Catalogue and you subsequently use the Website and/or order a part/product from us.

7. GOVERNING LAW/ VENUE FOR ACTIONS

By ordering parts/products from Moss you agree that (a) all claims arising out of or relating to the transaction will be governed by California Law; (b) all claims arising out of or relating to the transaction shall be brought and litigated exclusively in the Superior Court of the County of Santa Barbara (Anacapa Division), California, USA; and (c) you consent to personal jurisdiction in the previously mentioned court.

8. GENERAL LEGAL TERMS

If any provision, or part of a provision, of these Terms is held to be unenforceable, the rest of the Terms shall remain intact and be construed without the unenforceable such provision, or part of said provision. Moss may provide you with notices, including those regarding changes to the Terms, by email, regular mail, or postings on the Website and in the Catalogue. A waiver of any term or provision of these Terms will be effective only if Moss expressly states in a writing signed by an authorized representative that Moss is waiving that specified term or provision. These Terms and the Privacy Policy represent the complete agreement between you and Moss and supersede all prior agreements and representations related to the subject matter hereof.

PRIVACY POLICY

1. OUR COMMITMENT TO PRIVACY

This notice describes our Privacy Policy. Our privacy policy is designed to advise you about how we collect, use, and protect the personal information you provide. **By using our website or transacting business with us, you consent to the collection and use of your personal information as described in this Privacy Policy.**

2. WHAT INFORMATION IS COLLECTED

(a) **Information You Provide To Us:** We collect any information you enter on our site, or that you give us in any other way. You can choose not to provide certain information, but you may not be able to take advantage of our services and features.
(b) **Automatic Information:** When you visit a website, you disclose certain information, such as your Internet Protocol (IP) address and the time of your visit. This site, like many other sites, records this basic information about visits to our site.
(c) **"Cookies":** A cookie is a small piece of data that is sent to your browser or mobile device by websites, mobile apps, and advertisements that you access or use. This data is stored on your browser or mobile device and helps website and mobile apps to remember things about you to improve your experience with the website. Most browsers are set up to accept cookies, but you can change your settings to have your browser notify you when you receive a new cookie or to refuse to accept cookies. If you do not wish for cookies to be placed on your computer, most web browsers permit you to prevent that from taking place. However, please keep in mind that these technologies

are an important part of how the website works; removing, rejecting or limiting the use of cookies or other similar technologies might affect the availability and functionality of the website. To opt-out of receiving our direct mail or catalogs, you may send us an email at moss.sales@moss-motors.com or call us at 800-689-9313.

3. HOW AND WHEN THE INFORMATION IS USED

The information we collect is used for administering our business activities i.e., collecting your name, mailing address, credit card information, and e-mail address to allow for us to process and fulfill an order you place on our website. Occasionally we may use the information to notify you about changes to our website, new services, or special offers. If you wish to unsubscribe from our email list you may at any time.

4. HOW WE PROTECT YOUR INFORMATION

The privacy and protection of your information is important to us. We do not make any personal information available to third parties without your permission. Your access to some services and content is password protected. We advise that you do not disclose your password to anyone. In addition, we recommend you sign out of password-protected services at the end of your session.

5. WHO HAS ACCESS TO THE INFORMATION

Information about our users is important to us. We will not disclose individually identifiable information to any third party without first receiving that user's permission, except as necessary to fulfill your orders and support our marketing activities including direct mail, e-mail, database cleaning and maintenance,

and analysis. They have access to personal information needed to perform their functions, but may not use it for other purposes. We do not sell, rent or trade our customers' personal information to third parties. We may from time to time contract with third party vendors to provide ads to our customers on our behalf via the Internet or to send direct mail or catalogs to customers whom we think may be interested in our products or services. In order to do so, the vendor may collect anonymous information about your visits to our website using a "cookie". Third-party vendors may then pool the anonymous information that they collect from our website with other sources of information, which may include your name and mailing address, for purposes of determining whether you might be interested in receiving direct mail or a catalog..

6. METHODS WE USE TO PROTECT YOUR INFORMATION

We use security software to protect the confidentiality of your personal information. When you order from us, we offer a secure server. The secure server software (SSL) encrypts all the information you input before it is sent to us. Our system supports up to 128-bit encryption, one of the highest levels available.

7. CHANGES TO PRIVACY POLICY

If our Privacy Policy or procedures change, we will immediately post those changes to our website. Any such changes will be effective immediately upon being posted, unless otherwise stated in the change.

8. EFFECTIVE DATE

This Privacy Policy is effective as of March 17, 2018

ORDERING & SHIPPING

SHIPPING

- Shipping is calculated on the regular retail price before any discounts.
- Orders received by 3 p.m. local time are normally shipped same day when shipped by UPS Ground Preferred or UPS Air.
- We will ship by Ground Saver unless an alternate shipping method is specified.
- Alaska, Hawaii, Puerto Rico must choose either AK/HI/PR Saver or UPS Air (see info below shipping chart).

OVERSIZE PARTS FEE

Some items are oversized and are indicated by the oversize parts fee icon. An oversize parts fee (per item) will be applied to your order. This fee will still be charged on free shipping orders. You can find the amount of the fee by visiting MossMiata.com or calling 800-642-8295. The oversize parts fee will not be charged on orders that ship by truck freight.

TRUCK SHIPMENT FEE

- Some parts must be shipped truck freight. Orders shipped to the 48 Contiguous states will be charged a flat \$199. Orders shipped to Canada will be charged a flat rate of \$279.

PO BOX, A.P.O. OR F.P.O.

- A.P.O., F.P.O. and P.O. Box orders are not guaranteed and will be shipped via USPS.

UPS AIR DELIVERY SERVICE (48 STATES)

- Saturday Delivery - Available on UPS Next Day Air and UPS 2nd Day Air orders for an additional \$16.00 and is not available in all areas.
- Orders shipped by air that are over 40 lbs., by weight or dimensions, we reserve the right to charge actual shipping and will notify you in advance.

INTERNATIONAL ORDERS

Orders delivered outside of the USA may take additional time to ship due to additional documentation and payment verification.

- All import costs and fees including duties and taxes are the responsibility of the customer.
- First-time orders and some larger orders may require payment by wire transfer.
- Orders may require a shipping quote and customer approval prior to shipping.
- Customer assumes liability for any disputes or damages when providing their own shipping arrangements.
- Orders are shipped by Air Post when possible. At times, Canada Post may use ground shipping for delivery.
- Shipping charges on orders under \$700 are calculated in the cart during website checkout.
- Orders **under \$700** that are heavier than 40 lbs. (by weight or dimensions) will be charged actual shipping.
- Orders **over \$700** will be charged actual shipping.

See MossMotors.com/ordering-shipping for full details on our ordering and shipping policies.

PAYMENT

- We have a \$10 minimum parts order, excluding tax and shipping.
- We accept certified check, money order, and the following credit cards:
- Due to increasing fraud, some foreign orders may require additional documentation to process your order.

WHEN YOUR ORDER ARRIVES

- Please remember to inspect your parts immediately upon receipt of your order.
- Should your order arrive in damaged condition, immediately inform a Moss Motors customer service representative at 1-800-689-9313.
- Claims for damage during shipping must be reported within 3 days of receipt of order.
- Keep original box and packing material.
- If your order was shipped truck freight, note damage on the bill of lading when signing the delivery receipt.
- If there are any other questions about your order, contact customer service within 10 days.

SPECIAL ORDER & DIRECT SHIP PARTS

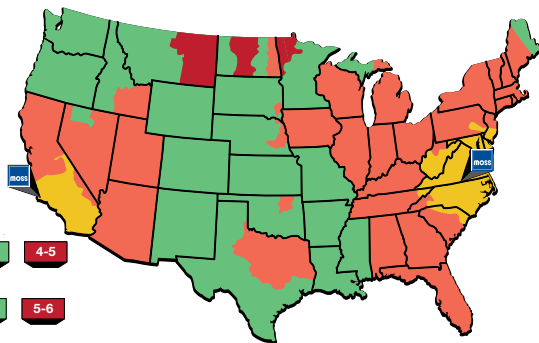

- Require pre-payment by cashiers check or credit card and may not be cancelled or returned.

BACKORDERS

- Occasionally, we are out of stock on some items, which we will ship to you as soon as available.
- Backorders are shipped free but carry a handling charge of \$3.49 per \$25 of value. (The combined total for original order shipping, and all backorder handling fees, shall never exceed the total shipping charges quoted on the shipping chart on this page.)
- You may request "No Backorders" or cancel backorders at any time prior to shipping.
- We do not backorder to any foreign countries, including Canada.
- Backorders are sent by the most cost effective method, not necessarily the same method as the original order.

WARRANTY - THE LONGEST IN THE BUSINESS!

- All Classic British products are warranted to be free from defects in material and workmanship for 2 years from the date of invoice.
- All superchargers, supercharger components, and supercharger hardware are warranted to be free from defects in material and workmanship for 1 year from date of invoice.
- Moss Motors, Ltd. will, at its discretion, repair or replace any part that fails in service within the warranty period. This warranty does not cover labor, failure of related components, normal wear of brake or clutch components or failure resulting from alteration, misuse, accidental damage, faulty installation, or faulty repair.
- Warranty requests should be submitted to our sales department and must be supported by the original Moss Motors purchase invoice and documentation of the failure.

† Ground Saver (default shipping method) - Ships by most economical method. May add 1-2 days.

†† Ground Preferred - Ships by UPS and is normally shipped same day if ordered by 3pm local time.

* Alaska, Hawaii and Puerto Rico

UPS Air - Add \$8 to the 2nd Business Day & Next Business Day Air Rates.

AK/HI/PR Saver - Subtract \$12 from the 2nd Business Day Air Rates

(Ships by most economical method and may take longer.)

¹ Free Ground UPS Shipping in the contiguous 48 states. Truck Shipments will be charged a flat \$199 to the 48 Contiguous states and \$279 to Canada.

^{**} Canada Chart Shipping rate is for orders under \$700 and less than 40lbs. Orders under \$700 that are heavier than 40lbs. and orders over \$700 will be charged actual shipping.

SALES TAX AND PRICES

- Due to Wayfair Supreme Court Decision we are required to collect sales tax on goods and freight according to each state's law.
- **Alabama Simplified Sellers Use Tax:** Moss Motors will collect simplified sellers use tax on taxable transactions delivered into Alabama and the tax will be remitted on the customer's behalf to the Alabama Department of Revenue. Moss Motors program account number is SSU-R010439133
- On the shopping cart checkout page, your sales tax shown will be estimated. Actual sales tax will be calculated at the time of order fulfillment. If your business is tax-exempt, please contact us at (800) 667-7872 to apply your tax exempt status.

RETURNS

See MossMiata.com/returns for full returns policy.

CATALOG ERRORS

Every effort has been made to provide accurate information. We reserve the right to correct typographical errors and will not be held liable for inaccuracy of pricing, descriptions or applications.

TERMS AND CONDITIONS & PRIVACY POLICY

	Same Day Shipping Orders received by 3 p.m. local time are normally shipped same day when shipped by UPS Ground Preferred or UPS Air. Does not apply to special orders and some oversized items.
	Truck Freight Fee Truck shipments to the 48 Contiguous states will be assessed a one time fee of \$199. Truck shipments to Canada will be assessed a one time fee of \$279.
123-456	Direct Shipping Direct ship orders are shipped right from the manufacturer. The manufacturer will receive your order within 24-48 hours and most items ship within 5 working days. Items will only be shipped to an address in the 48 contiguous states. Orders must be paid in advance by charge card or certified check. Oversize Fees may also apply.
	Oversize Parts Fee Some items are oversized and are indicated by the oversize parts fee icon. An oversize parts fee (per item) will be applied to your order. This fee will be charged on free shipping orders. You can find the amount of the fee by visiting MossMiata.com or calling 800-642-8295. The oversize parts fee will not be charged on orders that ship by truck freight.

Pricing is subject to change at any time.
